| Chemical name                              | Common name and synonyms | CAS number | %      |
|--|--------------------------|------------|--------|
| Isopropanol                                |                          | 67-63-0    | 5.48   |
| Alkyl benzyl dimethyl ammonium<br>chloride |                          | 68424-85-1 | 0.0175 |

| 4. First Aid Measures |  |  |
|-----------------------|--|--|
| Inhalation            | Not a normal route of exposure. If inhaled, remove to fresh air. Get medical attention if symptoms develop.                                  |  |
| Skin contact          | Non-irritating. Not a normal route of harmful exposure. Wash hands with soap and water. Get medical attention if irritation develops.        |  |
| Eye contact           | Rinse cautiously with water for 15-20 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation occurs. |  |

| Ingestion  | DO NOT induce vomiting unless directed to do so by medical personnel. Rinse mouth. If ingestion of a large amount does occur, call a physician immediately.  |   |  |
|--|--|---|--|
| Most important<br>symptoms/effects, acute and<br>delayed                     | Symptoms may include stinging, tearing, redness, swelling, and blurred vision.   |   |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Treat patient symptomatically.   |   |  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Avoid contact with eyes.  |   |  |
|  | 5. Fire Fighting M   | easures   |  |
| Suitable extinguishing media   | Water. Water fog. Foam. Dry chemica  | al powder. Carbon dioxide (CO2).  |  |
| Unsuitable extinguishing media   | None known.  |   |  |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to healt  | h may be formed.  |  |
| Special protective equipment<br>and precautions for firefighters             | face shield, gloves, rubber boots, and<br>clothing will only provide limited prote   |   |  |
| Fire-fighting<br>equipment/instructions                                      | In case of fire and/or explosion do no spray. Move product from fire area if   | t breathe fumes. In the event of fire, cool product with water you can do so without risk.                                  |  |
| Specific methods   |  | and consider the hazards of other involved materials. Move<br>so without risk. In the event of fire and/or explosion do not |  |
| General fire hazards   | Flammable solid.   |   |  |
| Hazardous combustion<br>products   | May include and are not limited to: O  | kides of carbon. Oxides of nitrogen.  |  |
| Explosion data<br>Sensitivity to mechanical<br>impact                        | Not available.   |   |  |
| Sensitivity to static<br>discharge   | Not available.   |   |  |
|  | 6. Accidental Releas   | e Measures  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | This is a pre-moistened wipe product without free flowing liquid. For clean-up, wear appropriate protective equipment and clothing. For personal protection, see section 8 of the SDS.   |   |  |
| Methods and materials for containment and cleaning up                        | Eliminate all ignition sources (no smo<br>disposal, see section 13 of the SDS.   | king, flares, sparks, or flames in immediate area). For waste   |  |
| Environmental precautions  | Do not contaminate water courses or  | ground.   |  |
|  | 7. Handling and  | Storage   |  |
| Precautions for safe handling  | Read and follow product label instruc  | tions. Keep out of reach of children.   |  |
| Conditions for safe storage,<br>including any incompatibilities              | Do not use or store near heat, open flame or any other source of ignition. Keep container closed. Use product only from original container. Do not freeze. Store away from incompatible materials listed in Section 10 of the SDS. |   |  |
|  | 8. Exposure Controls/Per   | sonal Protection  |  |
| Occupational exposure limits   |  |   |  |

|  | pН                                      | 6.5 (liquid)                |  |  |
|  | Melting point/freezing point            | Not available.              |  |  |
|  | Initial boiling point and boiling range | Not available.              |  |  |
|  | Pour point                              | Not available.              |  |  |
|  | Specific gravity                        | 0.989 ml/g (liquid)         |  |  |
| Partition coefficient<br>(n-octanol/water) |   | Not available.              |  |  |
|  | Flash point                             | 112.0 °F (44.4 °C) (liquid) |  |  |
| Evaporation rate                           |   | Not available.              |  |  |
| Flammability (solid, gas)                  |   | Flammable solid.            |  |  |
|  | Upper/lower flammability or expl        | losive limits               |  |  |
|  | Flammability limit - lower<br>(%)       | Not available.              |  |  |
|  | Flammability limit - upper<br>(%)       | Not available.              |  |  |
|  | Explosive limit - lower (%)             | Not available.              |  |  |
|  | Explosive limit - upper (%)             | Not available.              |  |  |
|  | Vapor pressure                          | Not available.              |  |  |
| Vapor density                              |   | Not available.              |  |  |
| Relative density                           |   | Not available.              |  |  |
|  | Solubility(ies)                         | Towelette not soluble       |  |  |
|  | Auto-ignition temperature               | Not available.              |  |  |
|  | Decomposition temperature               | Not available.              |  |  |
|  |   |                             |  |  |

Not available.

|  | 10. Stability and Reactivity  |  |  |
|--|---|--|--|
| Reactivity   | This product may react with strong acids and strong oxidizing agents.         |  |  |
| Possibility of hazardous No dangerous reaction known under conditions of normal use. |   |  |  |
| Chemical stability   | Material is stable under normal conditions.                                   |  |  |
| Conditions to avoid  | Do not freeze.<br>Source of ignition.<br>Contact with incompatible materials. |  |  |
| Incompatible materials   | Strong oxidizing agents. Acids.   |  |  |
| Hazardous decomposition products   | May include and are not limited to: Oxides of carbon. Oxides of nitrogen.     |  |  |
|  | 11. Toxicological Information   |  |  |
| Routes of exposure   | Inhalation. Ingestion. Skin contact. Eye contact.                             |  |  |
| Information on likely routes o   | f exposure  |  |  |
| Ingestion  | Health injuries are not known or expected under normal use.                   |  |  |
| Inhalation   | Health injuries are not known or expected under normal use.                   |  |  |
| Skin contact   | Non-irritating based on test data.  |  |  |
| Eye contact  | Mildly irritating to eyes based on test data.                                 |  |  |

Symptoms related to the<br/>physical, chemical and<br/>toxicological characteristicsDirect contact with eyes may cause temporary irritation.<br/>Symptoms may include stinging, tearing, redness, swelling of the eyes, and blurred vision.

## 12. Ecological Information

| Ecotoxicity                              | See below   |  |  |  |  |
|--|---|--|--|--|--|
| Components                               |   | Species                                      | Test Results   |  |  |
| Alkyl benzyl dimethyl ammor              | nium chloride (C  | AS 68424-85-1)                               |  |  |  |
| Aquatic                                  |   |  |  |  |  |
| Fish                                     | LC50  | Striped bass (Morone saxatilis)              | 10.4 - 19.1 mg/l, 96 hours   |  |  |
| Isopropanol (CAS 67-63-0)                |   |  |  |  |  |
| Algae                                    | IC50  | Algae  | 1000 mg/L, 72 Hours  |  |  |
| Crustacea                                | EC50  | Daphnia                                      | 13299 mg/L, 48 Hours   |  |  |
| Aquatic                                  |   |  |  |  |  |
| Fish                                     | LC50  | Bluegill (Lepomis macrochirus)               | > 1400 mg/l, 96 hours  |  |  |
| Persistence and degradability            | No data is av   | vailable on the degradability of this prod   | uct.   |  |  |
| Bioaccumulative potential                | No data avai  | lable.                                       |  |  |  |
| Mobility in soil                         | No data avai  | lable.                                       |  |  |  |
| Mobility in general                      | Not available.  |  |  |  |  |
| Other adverse effects                    |   |  | depletion, photochemical ozone creation ntial) are expected from this component. |  |  |
|  |   | 13. Disposal Considerations                  |  |  |  |
| Disposal instructions                    | Dispose of contents/container in accordance with local/regional/national/international regulation           |  | cal/regional/national/international regulations.                                 |  |  |
|  | Refer to proc   | luct label for specific disposal instruction | IS.  |  |  |
| Local disposal regulations               | Dispose in a  | ccordance with all applicable regulation     | S.   |  |  |
| Hazardous waste code                     | Assign as re  | quired.                                      |  |  |  |
| Waste from residues / unused<br>products | This material   | and its packaging must be disposed of        | in a safe manner (see: Disposal instructions).                                   |  |  |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. |  |  |  |  |
|  |   | 14. Transport Information                    |  |  |  |

U.S. Department of Transportation (DOT) Not regulated. Transportation of Dangerous Goods (TDG - Canada) Not regulated.
