## Section 5. Fire Fighting Measures

<b>Suitable extinguishing media:</b>	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
<b>Unsuitable extinguishing media:</b>	None known.
<b>Specific hazard during fire fighting:</b>	Fire hazard. Keep away from heat and sources of ignition. Flash back possible over considerable distance. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
<b>Hazardous combustion products:</b>	Carbon oxides
<b>Special protective equipment for fire-fighters:</b>	Use personal protective equipment.
<b>Specific extinguishing methods:</b>	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

## Section 6. Accidental Release Measures

<b>Personal precautions, protective equipment and emergency procedures:</b>	Ensure adequate ventilation. Remove all sources of ignition. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. An appropriate certified respirator must be used when workers are facing concentrations above the exposure limit. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed on sections 7 and 8.
<b>Environmental precautions:</b>	Do not allow contact with soil, surface or ground water.
<b>Methods and materials for containment and cleaning up.</b>	Eliminate ignition sources and leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material (e.g. sand, earth, vermiculite, diatomaceous earth) and place in container for disposal according to local and national regulations (see Section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

## Section 7. Handling and Storage

**HANDLING:** Avoid contact with eyes, skin and on clothing. Use in a well-ventilated area. Avoid inhalation of vapors and mists. Do not ingest. Do not breathe dust/fume/mist/vapor/spray. Wash hands thoroughly after handling. Avoid static electricity discharge (which may cause ignition of organic vapors).

**STORAGE:** Store in original container protected from direct sunlight in a dry, cool, and well-ventilated area, away from incompatible materials and food and drink. Keep out of reach of children.

**STORAGE TEMPERATURE:** 4.4°C (40°F) Minimum to 49°C (120°F) Maximum.

**Notes:** Store in a cool place below 120°F (49°C).
