

1. Identification	
Product name	ADDITIVE LB 2
Other means of identification	No data available.
Recommended use:	Additive
Restrictions on use:	Industrial use only

# Manufacturer/Importer/Supplier/Distributor Information

### Manufacturer

Company Name:	Fuchs Lubricants Co.
Address:	17050 Lathrop Avenue
	Harvey, Illinois 60426
Telephone:	708-333-8900
Fax:	708-333-9180
Contact Person:	EHS Department
E-mail:	sds@fuchsus.com

Emergency telephone number: 708-333-8900 (Bus. hrs) 800-255-3924 (24 hrs)

# 2. Hazard(s) identification

# **Hazard Classification**

### Health Hazards

Acute toxicity (Oral)	Category 4
Skin Corrosion/Irritation	Category 1A
Serious Eye Damage/Eye Irritation	Category 1

### Label Elements

Hazard Symbol:

Signal Word:

Danger

Hazard Statement:

Harmful if swallowed. Causes severe skin burns and eye damage.

Precautionary Statements		
Prevention:	Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Do not breathe dust or mists. Wear protective gloves/protective clothing/eye protection/face protection.	
Response:	IF INHALED: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF SWALLOWED: Call a POISON CENTER/doctor/ if you feel unwell. Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER/doctor. Specific treatment (see this label). Wash contaminated clothing before reuse. Collect spillage.	
Storage:	Store locked up.	
Disposal:	Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.	
r hazards which do not t in GHS classification:	None.	
Unknown toxicity - Health		
Acute toxicity, oral		0 %
Acute toxicity, dermal		0 %
Acute toxicity, inhalation,	vapor	100 %
Acute toxicity, inhalation, dust 50 % or mist		50 %

# 3. Composition/information on ingredients

## Hazardous Component(s):

Chemical name	CAS-No.	Concentration
Inorganic silicate compound	Confidential	40 - 70%
On a sitial share include within a set of a superior set of a set of a set with head as the destands		

Specific chemical identities and/or exact percentages have been withheld as trade secrets.

## 4. First-aid measures

## Ingestion:

Other result

Rinse mouth. Call a physician or poison control center immediately. Never give liquid to an unconscious person. Do not induce vomiting without advice from poison control center.

Skin Contact: Remove contaminated clothing and shoes. Wash contact areas with soap and water. If skin irritation occurs: Gett medical advice/attention. Call a physician or poison control center immediately. Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash contaminated clothing before reuse.   Eye contact: Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Call a physician or poison control center immediately.   Most important symptoms/effects, acute and delayed Symptoms:   No data available. Indication of immediate medical attention and special treatment needed   Treatment: Symptoms may be delayed.   5. Fire-fighting measures General Fire Hazards:   Mo unusual fire or explosion hazards noted. Suitable (and unsuitable) extinguishing media   Suitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.   Specific hazards arising from the chemical: Heat may cause the containers to explode. During fire, gases hazardous to health may be formed.   Special protective equipment and precautions for firefighters No data available.   Special protective equipment and precautions for firefighters No data available.   Special protective equipment and protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.	Inhalation:	Call a physician or poison control center immediately. If breathing stops, provide artificial respiration. Move to fresh air. If breathing is difficult, give oxygen.	
remove contact lenses. Call <sup>a</sup> physician or poison control center immediately. Most important symptoms/effects, acute and delayed Symptoms: No data available. Indication of immediate medical attention and special treatment needed Treatment: Symptoms may be delayed. 5. Fire-fighting measures General Fire Hazards: No unusual fire or explosion hazards noted. Suitable (and unsuitable) extinguishing media Suitable extinguishing water spray, fog, CO2, dry chemical, or regular foam. Use fire- extinguishing media appropriate for surrounding materials. Unsuitable extinguishing bo not use water jet as an extinguisher, as this will spread the fire. Specific hazards arising from the chemical: Do not use water jet as an extinguisher, as this will spread the fire. Special protective equipment and precautions for firefighters Special fire fighting No data available. Firefighters: No data available.	Skin Contact:	and water. If skin irritation occurs: Get medical advice/attention. Call a physician or poison control center immediately. Immediately flush with plenty of water for at least 15 minutes while removing contaminated	
Symptoms:No data available.Indication of immediate medical attention and special treatment neededTreatment:Symptoms may be delayed.5. Fire-fighting measuresGeneral Fire Hazards:No unusual fire or explosion hazards noted.Suitable (and unsuitable) extinguishing mediaSuitable extinguishing media:Water spray, fog, CO2, dry chemical, or regular foam. Use fire- extinguishing media appropriate for surrounding materials.Unsuitable extinguishing media:Do not use water jet as an extinguisher, as this will spread the fire.Specific hazards arising from the chemical:Heat may cause the containers to explode. During fire, gases hazardous to health may be formed.Special protective equipment and precautions for firefightersNo data available.Special protective equipment for fire-fighters:Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in	Eye contact:	remove contact lenses. Call a physician or poison control center	
Indication of immediate medical attention and special treatment needed   Treatment: Symptoms may be delayed.   5. # 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:	See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.
Methods and material for containment and cleaning up:	Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Dike far ahead of larger spill for later recovery and disposal.
Environmental Precautions:	Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.
7. Handling and storage	
Precautions for safe handling:	Observe good industrial hygiene practices. Wear appropriate personal protective equipment. Do not expose to intense heat as product may expand and pressurize container. Do not taste or swallow. Wash hands thoroughly after handling. Do not get in eyes. Use caution when adding this material to water. Add material slowly when mixing with water. Do not add water to the material; instead, add the material to the water. Do not get in eyes, on skin, on clothing.
Conditions for safe storage, including any incompatibilities:	Store locked up.

# 8. Exposure controls/personal protection

Exposure Limits	
	None of the components have assigned exposure limits.
Protective Measures:	Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Respiratory Protection:	In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.
Eye Protection:	Wear safety glasses with side shields (or goggles).
Skin and Body Protection:	Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacturer for specific information.
Hygiene measures:	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear

that cannot be cleaned.

# 9. Physical and chemical properties

Appearance	
Physical state:	liquid
Form:	No data available.
Color:	Colorless
Odor:	Slight
Odor threshold:	No data available.
pH:	12.0
Melting point/freezing point:	No data available.
Initial boiling point and boiling range:	101 °C
Flash Point:	not applicable
Evaporation rate:	No data available.
Flammability (solid, gas):	No data available.
Upper/lower limit on flammability or explosive limits	
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper (%):	No data available.
Explosive limit - lower (%):	No data available.
Vapor pressure:	No data available.
Vapor density:	No data available.
Relative density:	1.57
Solubility(ies)	
Solubility in water:	Completely soluble in water
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.

# 10. Stability and reactivity

Reactivity:	Not reactive during normal use.
Chemical Stability:	Material is stable under normal conditions.
Possibility of hazardous reactions:	None under normal conditions.
Conditions to avoid: SDS_US	Avoid heat or contamination.

Incompatible Materials:	No data available.	
Hazardous Decomposition Products:	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.	
11. Toxicological information		
Information on likely routes of ex Ingestion:	<b>xposure</b> Harmful if swallowed.	
Inhalation:	Harmful if inhaled.	
Skin Contact:	Causes severe skin burns.	
Eye contact:	Causes serious eye damage.	
Symptoms related to the physica Ingestion:	al, chemical and toxicological characteristics No data available.	
Inhalation:	No data available.	
Skin Contact:	No data available.	
Eye contact:	No data available.	
Information on toxicological effe	ects	
Acute toxicity (list all possible	e routes of exposure)	
Oral Product:	ATEmix (): 300 - 2000 mg/kg	
Dermal Product:	ATEmix (): > 5000 mg/kg	
Inhalation Product:	Not classified for acute toxicity based on available data.	
Repeated dose toxicity Product:	No data available.	
Skin Corrosion/Irritation Product:	No data available.	
Serious Eye Damage/Eye Irritation Product: No data available.		
Respiratory or Skin Sensitizatio	n	
SDS_US		

**Product:** 

No data available.

Carcinogenicity Product:

No data available.

IARC Monographs on the Evaluation of Carcinogenic Risks to Humans: No carcinogenic components identified

**US. National Toxicology Program (NTP) Report on Carcinogens:** No carcinogenic components identified

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050): No carcinogenic components identified

### **Germ Cell Mutagenicity**

In vitro Product:	No data available.
In vivo Product:	No data available.
Reproductive toxicity Product:	No data available.
Specific Target Organ Toxic Product:	<b>ity - Single Exposure</b> No data available.
Specific Target Organ Toxic Product:	<b>ity - Repeated Exposure</b> No data available.
Aspiration Hazard Product:	No data available.
Other effects:	No data available.

12. Ecological information	
General information:	This product has not been evaluated for ecological toxicity or other environmental effects.
13. Disposal considerations	
Disposal instructions:	Discharge, treatment, or disposal may be subject to national, state, or local laws. Dispose of waste at an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. It is the responsibility of the product user or owner to determine at the time of disposal, which waste regulations must be applied.

### **Contaminated Packaging:**

Empty containers should be taken to an approved waste handling site for recycling or disposal.

### 14. Transport information

#### DOT

Not regulated.

#### IMDG

Not regulated.

#### ΙΑΤΑ

Not regulated.

### 15. Regulatory information

### **US Federal Regulations**

#### US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050) None present or none present in regulated quantities.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### Hazard categories

Immediate (Acute) Health Hazards

#### SARA 313 (TRI Reporting)

None present or none present in regulated quantities.

### **US State Regulations**

#### **US. California Proposition 65**

No ingredient regulated by CA Prop 65 present.

## 16.Other information, including date of preparation or last revision

Issue Date:	10.03.2017
Revision Date:	10.03.2017
Version #:	1.1
