## 2. Hazard(s) identification

### Hazard Classification

E-mail:

### Health Hazards

Aspiration Hazard

Category 1

#### Label Elements

Hazard Symbol:

Signal Word:

Danger

Hazard Statement:

May be fatal if swallowed and enters airways.

Precautionary Statements

| Response:  | IF SWALLOWED: Immediately call a POISON CENTER/doctor. Do NOT induce vomiting.   |
|--|--|
| Storage:   | Store locked up.   |
| Disposal:  | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. |
| Other hazards which do not result in GHS classification: | None.  |

| Unknown toxicity - Health                |         |
|--|---------|
| Acute toxicity, oral                     | 0 %     |
| Acute toxicity, dermal                   | 0 %     |
| Acute toxicity, inhalation, vapor        | 100 %   |
| Acute toxicity, inhalation, dust or mist | 85.79 % |

## 3. Composition/information on ingredients

### Hazardous Component(s):

| Chemical name   | CAS-No.                      | Concentration |
|---|------------------------------|---------------|
| Mineral spirits   | Confidential                 | 60 - 100%     |
| Encoific chemical identities and/or event nercontages have be | n withhald on trade contrate |               |

Specific chemical identities and/or exact percentages have been withheld as trade secrets.

### 4. First-aid measures

| Ingestion:   | Call a physician or poison control center immediately. Rinse mouth. Never give liquid to an unconscious person. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. |
|--|---|
| Inhalation:  | Move to fresh air. Call a POISON CENTER/doctor//if you feel unwell.   |
| Skin Contact:                                      | Remove contaminated clothing and shoes. Wash contact areas with soap and water. If skin irritation occurs: Get medical advice/attention.  |
| Eye contact:                                       | Flush thoroughly with water. If irritation occurs, get medical assistance.<br>Continue to rinse for at least 15 minutes.  |
| Most important symptoms/effects, acute and delayed |   |
| Symptoms:  | No data available.  |

Indication of immediate medical attention and special treatment needed

| Treatment:   | Get medical attention if symptoms occur.  |
|--|---|
| 5. Fire-fighting measures  |   |
| General Fire Hazards:  | No unusual fire or explosion hazards noted.   |
| Suitable (and unsuitable) extingu  | iishing media   |
| Suitable extinguishing media:  | Water spray, fog, CO2, dry chemical, or regular foam. Use fire-<br>extinguishing media appropriate for surrounding materials.   |
| Unsuitable extinguishing media:  | Do not use water jet as an extinguisher, as this will spread the fire.  |
| Specific hazards arising from the chemical:                                | Heat may cause the containers to explode. During fire, gases hazardous to health may be formed.   |
| Special protective equipment an  | d precautions for firefighters  |
| Special fire fighting procedures:  | No data available.  |
| Special protective equipment for fire-fighters:                            | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.  |
| 6. Accidental release measures   | S   |
| Personal precautions,<br>protective equipment and<br>emergency procedures: | See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away. Ensure adequate ventilation.  |
| Methods and material for<br>containment and cleaning<br>up:                | Absorb with sand or other inert absorbent. Stop the flow of material, if this is without risk.  |
| Environmental Precautions:   | Avoid release to the environment. Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.  |
| 7. Handling and storage  |   |
| Precautions for safe handling:   | Contains a component that when heated at or above 300F (150C) may<br>generate Formaldehyde vapors. Observe good industrial hygiene practices.<br>Wear appropriate personal protective equipment. Do not expose to intense<br>heat as product may expand and pressurize container. |

### Conditions for safe storage, Store locked up. including any incompatibilities:

## 8. Exposure controls/personal protection

| Ex | posure | Limits |  |
|----|--------|--------|--|
|    |        |        |  |

| Chemical name   | type | Exposure Limit Values |           | Source  |
|---|------|-----------------------|-----------|---|
| Mineral spirits - Non-aerosol as total<br>hydrocarbon vapor | TWA  |                       | 200 mg/m3 | US. ACGIH Threshold Limit Values (03 2012)  |
| Mineral spirits   | PEL  | 100 ppm               | 400 mg/m3 | US. OSHA Table Z-1 Limits for Air<br>Contaminants (29 CFR 1910.1000) (03<br>2016) |
| Mineral spirits   | TWA  | 100 ppm               | 400 mg/m3 | US. OSHA Table Z-1-A (29 CFR<br>1910.1000) (1989)                                 |

| Protective Measures:      | Use personal protective equipment as required.   |
|---------------------------|--|
| Respiratory Protection:   | In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.  |
| Eye Protection:           | Wear safety glasses with side shields (or goggles).  |
| Skin and Body Protection: | Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacturer for specific information.   |
| Hygiene measures:         | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned. |

## 9. Physical and chemical properties

| Appearance                               |                      |
|--|----------------------|
| Physical state:                          | liquid               |
| Form:                                    | No data available.   |
| Color:                                   | Colorless            |
| Odor:                                    | Mild                 |
| Odor threshold:                          | No data available.   |
| pH:                                      | No data available.   |
| Melting point/freezing point:            | No data available.   |
| Initial boiling point and boiling range: | No data available.   |
| Flash Point:                             | 98.89 °C (210.00 °F) |
| Evaporation rate:                        | No data available.   |
| Flammability (solid, gas):               | No data available.   |
| SDS_US                                   |                      |

| Upper/lower limit on flammability or explosive limits<br>Flammability limit - upper (%):<br>Flammability limit - lower (%): |
|---|
| Explosive limit - upper (%):  |
| Explosive limit - lower (%):  |
| Vapor pressure:   |
| Vapor density:  |
| Relative density:   |
| Solubility(ies)   |
| Solubility in water:  |
| Solubility (other):   |
| Partition coefficient (n-octanol/water):  |
| Auto-ignition temperature:  |
| Decomposition temperature:  |
| Viscosity:  |
|   |

No data available. 0.81

Insoluble No data available. No data available. No data available. No data available. No data available.

## 10. Stability and reactivity

| Reactivity:                          | Not reactive during normal use.  |
|--------------------------------------|--|
| Chemical Stability:                  | Material is stable under normal conditions.  |
| Possibility of hazardous reactions:  | None under normal conditions.  |
| Conditions to avoid:                 | Avoid heat or contamination.   |
| Incompatible Materials:              | No data available.   |
| Hazardous Decomposition<br>Products: | Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors. formaldehyde |

## 11. Toxicological information

#### Information on likely routes of exposure

| Ingestion:             | May be ingested by accident. Ingestion may result in vomiting; aspiration (breathing) of vomitus into lungs must be avoided as even small quantities may result in aspiration pneumonitis. Ingestion may result in vomiting; aspiration (breathing) of vomitus into lungs must be avoided as even small |
|------------------------|---|
| Inhalation:            | quantities may result in aspiration pneumonitis.<br>Spray mists may cause respiratory tract irritation.   |
| Skin Contact:          | Prolonged skin contact may cause redness and irritation.  |
| Eye contact:<br>SDS_US | Eye contact is possible and should be avoided.  |

| Symptoms related to the physical, chemical and toxicological characteristics<br>Ingestion: No data available. |  |  |  |
|---|--|--|--|
| Inhalation:   | No data available.   |  |  |
| Skin Contact:   | No data available.   |  |  |
| Eye contact:  | No data available.   |  |  |
| Information on toxicological effects  |  |  |  |
| Acute toxicity (list all possible   | routes of exposure)  |  |  |
| Oral<br>Product:  | Not classified for acute toxicity based on available data. |  |  |

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050): No carcinogenic components identified

## Germ Cell Mutagenicity

| In vitro<br>Product:   | No data available.                            |
|--|---|
| In vivo<br>Product:  | No data available.                            |
| Reproductive toxicity<br>Product:  | No data available.                            |
| Specific Target Organ Toxicity -<br>Product:                                 | Single Exposure<br>No data available.         |
| Specific Target Organ Toxicity - Repeated ExposureProduct:No data available. |   |
| Aspiration Hazard<br>Product:  | May be fatal if swallowed and enters airways. |
| Other effects:   | No data available.                            |

## 12. Ecological information

| General information:        | This product has not been evaluated for ecological toxicity or other environmental effects.   |
|-----------------------------|---|
| 13. Disposal considerations |   |
| Disposal instructions:      | Discharge, treatment, or disposal may be subject to national, state, or local<br>laws. Dispose of waste at an appropriate treatment and disposal facility in<br>accordance with applicable laws and regulations, and product<br>characteristics at time of disposal. It is the responsibility of the product user<br>or owner to determine at the time of disposal, which waste regulations must<br>be applied. |
| Contaminated Packaging:     | Empty containers should be taken to an approved waste handling site for recycling or disposal.  |
| 14. Transport information   |   |

#### DOT

Not regulated.

#### IMDG

Not regulated.

ΙΑΤΑ

Not regulated.

## 15. Regulatory information

## **US Federal Regulations**

## US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

None present or none present in regulated quantities.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

### Hazard categories

Immediate (Acute) Health Hazards

#### SARA 313 (TRI Reporting)

None present or none present in regulated quantities.

#### **US State Regulations**

#### **US. California Proposition 65**

No ingredient regulated by CA Prop 65 present.
