

# SAFETY DATA SHEET

#### 1. Identification

Product name	ECOCOOL 8085
Other means of identification	No data available.
Recommended use:	Metalworking fluid
Restrictions on use:	Industrial use only

#### Manufacturer/Importer/Supplier/Distributor Information

#### Manufacturer

Fuchs Lubricants Co.
17050 Lathrop Avenue
Harvey, Illinois 60426
708-333-8900
708-333-9180
EHS Department
sds@fuchs.com

Emergency telephone number: 708-333-8900 (Bus. hrs) 800-255-3924 (24 hrs)

### 2. Hazard(s) identification

#### **Hazard Classification**

#### **Health Hazards**

Serious Eye Damage/Eye IrritationCategory 2ASkin sensitizerCategory 1

#### Label Elements

Hazard Symbol:

Signal Word:

Warning

Hazard Statement:	Causes serious eye irritation. May cause an allergic skin reaction.
Precautionary Statements	
Prevention:	Avoid breathing dust/fume/gas/mist/vapors/spray. Wash face, hands and any exposed skin thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves/ protective clothing/ eye protection/ face protection.
Response:	IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical advice/attention. Specific treatment (see supplemental first aid instructions on this label). IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Disposal:	Dispose of contents/ container to an approved facility in accordance with local, regional, national and international regulations.

## Other hazards which do not None. result in GHS classification:

Unknown toxicity - Health

•	
Acute toxicity, oral	6.74 %
Acute toxicity, dermal	19.26 %
Acute toxicity, inhalation, vapor	36 %
Acute toxicity, inhalation, dust or mist	28.31 %

## 3. Composition/information on ingredients

#### Hazardous Component(s):

Chemical name	CAS-No.	Concentration
Distillates (petroleum), hydrotreated heavy naphthenic	64742-52-5	5 - <10%
Triethanolamine	102-71-6	5 - <10%
Polysulfide	Confidential	1 - <5%
Ethoxylated oleyl alcohol	Confidential	1 - <2.5%
4-Octanol, 3-amino-	1001354-72-8	1 - <5%
Hexylene glycol	107-41-5	1 - <5%
2-n-Octyl-4-isothiazolin-3-one	Confidential	0.1 - <1%

Specific chemical identities and/or exact percentages have been withheld as trade secrets.

#### 4. First-aid measures

Ingestion:	Rinse mouth thoroughly. Call a POISON CENTER/doctor if you feel unwell. Do NOT induce vomiting.	
Inhalation:	Move to fresh air. Call a POISON CENTER/doctor if you feel unwell.	
Skin Contact:	Remove contaminated clothing and shoes. Wash contact areas with soap and water. If skin irritation occurs: Get medical advice/attention. Immediately remove contaminated clothing and shoes and wash skin with soap and plenty of water.	
Eye contact:	Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.	
Most important symptoms/effect	s, acute and delayed	
Symptoms:	No data available.	
Indication of immediate medical a	ttention and special treatment needed	
Treatment:	Get medical attention if symptoms occur.	
5. Fire-fighting measures		
General Fire Hazards:	No unusual fire or explosion hazards noted.	
Suitable (and unsuitable) extingu	uishing media	
Suitable extinguishing media:	Water spray, fog, CO2, dry chemical, or regular foam. Use fire- extinguishing media appropriate for surrounding materials.	
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical:	Heat may cause the containers to explode. During fire, gases hazardous to health may be formed.	
Special protective equipment and precautions for fire-fighters		
Special fire-fighting procedures:	No data available.	
Special protective equipment for fire-fighters:	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in	
Ū	enclosed spaces, SCBA.	

## 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:	See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.
Methods and material for containment and cleaning up:	Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Dike far ahead of larger spill for later recovery and disposal.
Environmental Precautions:	Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.
7. Handling and storage	
Precautions for safe handling:	Contains amines. Do not add sodium nitrite or other nitrosating agents which may form cancer causing nitrosamines. Wash hands thoroughly after handling. Add material slowly when mixing with water. Do not add water to the material; instead, add the material to the water. Avoid contact with eyes,

Conditions for safe storage, including any	Store in original tightly closed container. Avoid contact with oxidizing agents. Store away from incompatible materials.
incompatibilities:	

skin, and clothing.

## 8. Exposure controls/personal protection

#### **Exposure Limits**

Chemical name	Туре	Exposure Limit Values	Source
Distillates (petroleum), hydrotreated heavy naphthenic - Mist.	PEL	5 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000), as amended (02 2006)
Triethanolamine	TWA	5 mg/m3	US. ACGIH Threshold Limit Values, as amended (03 2012)
Hexylene glycol - Vapor fraction	TWA	25 ppm	US. ACGIH Threshold Limit Values, as amended (03 2017)
Hexylene glycol - Aerosol, inhalable.	STEL	10 mg/m3	US. ACGIH Threshold Limit Values, as amended (03 2017)
Hexylene glycol - Vapor fraction	STEL	50 ppm	US. ACGIH Threshold Limit Values, as amended (03 2017)

Protective Measures:	Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Respiratory Protection:	In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.
Eye Protection:	Wear safety glasses with side shields (or goggles).

Skin and Body Protection:	Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacturer for specific information.
Hygiene measures:	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.

## 9. Physical and chemical properties

, pposiaileo	
Physical state:	liquid
Form:	liquid
Color:	Amber
Odor:	mild petroleum
Odor threshold:	No data available.
pH:	9.7
Melting point/freezing point:	No data available.
Initial boiling point and boiling range:	No data available.
Flash Point:	212 °C (414 °F)
Evaporation rate:	No data available.
Flammability (solid, gas):	No data available.
Upper/lower limit on flammability or explosive limits	
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper:	No data available.
Explosive limit - lower:	No data available.
Vapor pressure:	No data available.
Vapor density:	No data available.
Relative density:	1.005
Solubility(ies)	
Solubility in water:	Completely soluble in water
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.
VOC:	7.63 %

#### 10. Stability and reactivity **Reactivity:** Not reactive during normal use. **Chemical Stability:** Material is stable under normal conditions. Possibility of hazardous None under normal conditions. reactions: Conditions to avoid: Avoid heat or contamination. Incompatible Materials: No data available. **Hazardous Decomposition** Thermal decomposition or combustion may liberate carbon oxides and Products: other toxic gases or vapors.

#### 11. Toxicological information

Information on likely routes of exposure Ingestion: May be harmful if swallowed.		
Inhalation:	Harmful if inhaled.	
Skin Contact:	Causes skin irritation. May cause an allergic skin reaction.	
Eye contact:	Causes serious eye irritation.	
Symptoms related to the physica Ingestion:	al, chemical and toxicological characteristics No data available.	
Inhalation:	No data available.	
Skin Contact:	No data available.	
Eye contact:	No data available.	
Information on toxicological effects		
Acute toxicity (list all possible routes of exposure)		
Oral Product:	ATEmix (): > 5000 mg/kg	
Dermal Product:	ATEmix (): > 5000 mg/kg	
Inhalation Product:		

Repeated dose toxicity Product:	No data available.	
Skin Corrosion/Irritation Product:	No data available.	
Serious Eye Damage/Eye Irritation Product: No data available.		
Respiratory or Skin Sensitizatio Product:	n No data available.	
Carcinogenicity Product:	No data available.	
IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:		
No carcinogenic components identified		
US. National Toxicology Program (NTP) Report on Carcinogens: No carcinogenic components identified		
US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended: No carcinogenic components identified		
Germ Cell Mutagenicity		
In vitro Product:	No data available.	
In vivo Product:	No data available.	
Reproductive toxicity Product:	No data available.	
Specific Target Organ Toxicity - Single Exposure   Product: No data available.		
Specific Target Organ Toxicity - Repeated Exposure   Product: No data available.		

Other effects: No data available.

No data available.

Aspiration Hazard Product:

12. Ecological information		
General information:	This product has not been evaluated for ecological toxicity or other environmental effects.	
13. Disposal consideration	IS	
Disposal instructions:	Discharge, treatment, or disposal may be subject to national, state, or local laws. Dispose of waste at an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. It is the responsibility of the product user or owner to determine at the time of disposal, which waste regulations must be applied.	
Contaminated Packaging:	Empty containers should be taken to an approved waste handling site for recycling or disposal.	

#### 14. Transport information

#### DOT

Not Regulated.

#### IMDG

Not Regulated.

#### ΙΑΤΑ

Not Regulated.

#### 15. Regulatory information

#### **US Federal Regulations**

## US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended None present or none present in regulated quantities.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### **Hazard categories**

Immediate (Acute) Health Hazards Serious eye damage or eye irritation Respiratory or Skin Sensitization

#### SARA 313 (TRI Reporting)

None present or none present in regulated quantities.

#### **US State Regulations**

#### **US.** California Proposition 65

This product can expose you to chemicals includingEthylene oxidewhich is [are] known to the State of California to cause cancer and birth defects or other reproductive harm.

Diethanolaminewhich is [are] known to the State of California to cause cancer.
