

SAFETY DATA SHEET

1. Identification

Product name	LUBRODAL F 400
Other means of identification	No data available.
Recommended use:	Metalworking fluid
Restrictions on use:	Industrial use only

Manufacturer/Importer/Supplier/Distributor Information

Manufacturer

Company Name:	Fuchs Lubricants Co.
Address:	17050 Lathrop Avenue
	Harvey, Illinois 60426
Telephone:	708-333-8900
Fax:	708-333-9180
Contact Person:	EHS Department
E-mail:	sds@fuchsus.com

Emergency telephone number: 708-333-8900 (Bus. hrs) 800-255-3924 (24 hrs)

2. Hazard(s) identification

Hazard Classification

Health Hazards

Skin Corrosion/IrritationCategory 1ASerious Eye Damage/Eye IrritationCategory 1

Label Elements

Hazard Symbol:

Signal Word:

Danger

Hazard Statement:

Causes severe skin burns and eye damage.

Precautionary Statements		
Prevention:		breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after ng. Wear protective gloves/protective clothing/eye protection/face ion.
Response:	breath Remov SKIN (with wa vomitir	ALED: Remove person to fresh air and keep comfortable for ing. IF IN EYES: Rinse cautiously with water for several minutes. ve contact lenses, if present and easy to do. Continue rinsing. IF ON or hair): Take off immediately all contaminated clothing. Rinse skin ater [or shower]. IF SWALLOWED: Rinse mouth. Do NOT induce ng. Immediately call a POISON CENTER/doctor. Specific treatment product SDS). Wash contaminated clothing before reuse.
Storage:	Store I	ocked up.
Disposal:	facility	e of contents/container to an appropriate treatment and disposal in accordance with applicable laws and regulations, and product teristics at time of disposal.
Other hazards which do not result in GHS classification:	None.	
Unknown toxicity - Health		
Acute toxicity, oral		0.01 %
Acute toxicity, dermal		0.01 %
Acute toxicity, inhalation	, vapor	35.49 %
Acute toxicity, inhalation or mist	, dust	34.69 %

3. Composition/information on ingredients

Hazardous Component(s):

Potassium hydroxide 1310-58-3	10 - 20%

Specific chemical identities and/or exact percentages have been withheld as trade secrets.

4. First-aid measures

Ingestion:

Call a physician or poison control center immediately. Rinse mouth. Never give liquid to an unconscious person. Do not induce vomiting without advice from poison control center.

all a physician or poison control center immediately. If breathing stops, ovide artificial respiration. Move to fresh air. If breathing is difficult, give sygen. emove contaminated clothing and shoes. Wash contact areas with soap nd water. If skin irritation occurs: Get medical advice/attention. Call a hysician or poison control center immediately. Immediately flush with enty of water for at least 15 minutes while removing contaminated othing and shoes. Wash contaminated clothing before reuse. mediately flush with plenty of water for at least 15 minutes. If easy to do, move contact lenses. Call a physician or poison control center mediately. cute and delayed o data available. htion and special treatment needed ymptoms may be delayed.
and water. If skin irritation occurs: Get medical advice/attention. Call a hysician or poison control center immediately. Immediately flush with enty of water for at least 15 minutes while removing contaminated othing and shoes. Wash contaminated clothing before reuse. Immediately flush with plenty of water for at least 15 minutes. If easy to do, move contact lenses. o data available. Ition and special treatment needed
tion and special treatment needed
·
/mptoms may be delayed.
o unusual fire or explosion hazards noted.
ing media
ater spray, fog, CO2, dry chemical, or regular foam. Use fire- tinguishing media appropriate for surrounding materials.
o not use water jet as an extinguisher, as this will spread the fire.
eat may cause the containers to explode. During fire, gases hazardous to ealth may be formed.
recautions for firefighters
o data available.
refighters must use standard protective equipment including flame tardant coat, helmet with face shield, gloves, rubber boots, and in inclosed spaces, SCBA.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:	See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.
Methods and material for containment and cleaning up:	Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Dike far ahead of larger spill for later recovery and disposal.
Environmental Precautions:	Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.

7. Handling and storage

Precautions for safe handling:	Observe good industrial hygiene practices. Wear appropriate personal protective equipment. Do not expose to intense heat as product may expand and pressurize container. Do not get in eyes. Wash hands thoroughly after handling. Use caution when adding this material to water. Add material slowly when mixing with water. Do not add water to the material; instead, add the material to the water. Do not get in eyes, on skin, on clothing.
Conditions for safe storage, including any incompatibilities:	Store locked up.

8. Exposure controls/personal protection

Exposure Limits

Chemical name	Туре	Exposure Limit Values	Source
Potassium hydroxide	Ceiling	2 mg/m3	US. ACGIH Threshold Limit Values (03 2012)

Protective Measures:	Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.	
Respiratory Protection:	In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.	
Eye Protection:	Wear safety glasses with side shields (or goggles).	
Skin and Body Protection:	Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacturer for specific information.	
Hygiene measures: SDS_US	Always observe good personal hygiene measures, such as washing after 4	1/9

handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.

9. Physical and chemical properties

Appearance	
Physical state:	liquid
Form:	No data available.
Color:	Clear
Odor:	Mild
Odor threshold:	No data available.
pH:	9.5
Melting point/freezing point:	No data available.
Initial boiling point and boiling range:	No data available.
Flash Point:	No data available.
Evaporation rate:	No data available.
Flammability (solid, gas):	No data available.
Upper/lower limit on flammability or explosive limits	
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper (%):	No data available.
Explosive limit - lower (%):	No data available.
Vapor pressure:	No data available.
Vapor density:	No data available.
Relative density:	1.21
Solubility(ies)	
Solubility in water:	Dispersible
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.

10. Stability and reactivity

Reactivity:	Not reactive during normal use.
Chemical Stability:	Material is stable under normal conditions.
Possibility of hazardous reactions:	None under normal conditions.

Conditions to avoid:	Avoid heat or contamination.
Incompatible Materials:	No data available.
Hazardous Decomposition Products:	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.
11. Toxicological information	
Information on likely routes of Ingestion:	exposure Harmful if swallowed.
Inhalation:	Harmful if inhaled.
Skin Contact:	Causes severe skin burns.
Eye contact:	Causes serious eye damage.
Symptoms related to the physi Ingestion:	cal, chemical and toxicological characteristics No data available.
Inhalation:	No data available.
Skin Contact:	No data available.
Eye contact:	No data available.
Information on toxicological ef	fects
Acute toxicity (list all possib	le routes of exposure)
Oral Product:	ATEmix (): 2000 - 5000 mg/kg
Dermal Product:	ATEmix (): > 5000 mg/kg
Inhalation Product:	Not classified for acute toxicity based on available data.
Repeated dose toxicity Product:	No data available.
Skin Corrosion/Irritation Product:	No data available.
Serious Eye Damage/Eye Irrita Product:	ition No data available.
Respiratory or Skin Sensitizati	on
SDS US	

Product:	No data available.	
Carcinogenicity Product:	No data available.	
IARC Monographs on the Evaluation of Carcinogenic Risks to Humans: No carcinogenic components identified		
US. National Toxicology Program (NTP) Report on Carcinogens: No carcinogenic components identified		
US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050): No carcinogenic components identified		
Germ Cell Mutagenicity		
In vitro Product:	No data available.	
In vivo Product:	No data available.	
Reproductive toxicity Product:	No data available.	
Specific Target Organ Toxicity - Single Exposure Product:No data available.		
Specific Target Organ Toxicity Product:	- Repeated Exposure No data available.	
Aspiration Hazard Product:	No data available.	
Other effects:	No data available.	
12. Ecological information		
General information:	This product has not been evaluated for ecological toxicity or other environmental effects.	
13. Disposal considerations		

Disposal instructions: Discharge, treatment, or disposal may be subject to national, state, or local laws. Dispose of waste at an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. It is the responsibility of the product user or owner to determine at the time of disposal, which waste regulations must be applied.

Contaminated Packaging:

Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT

Not regulated.

IMDG

Not regulated.

IATA

Not regulated.

15. Regulatory information

US Federal Regulations

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

None present or none present in regulated quantities.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories

Immediate (Acute) Health Hazards Skin Corrosion or Irritation Serious eye damage or eye irritation

SARA 313 (TRI Reporting)

None present or none present in regulated quantities.

US State Regulations

US. California Proposition 65

No ingredient regulated by CA Prop 65 present.

16.Other information, including date of preparation or last revision

Issue Date:	07.11.2018
Revision Date:	07.11.2018
Version #:	1.1
Further Information:	No data available.
