

# SAFETY DATA SHEET

## 1. Identification

Product name LUSTRE ALL

Other means of identification No data available.

Recommended use: Industrial cleaning fluid

Restrictions on use: Industrial use only

## Manufacturer/Importer/Supplier/Distributor Information

Manufacturer

Company Name: Fuchs Lubricants Co.
Address: 17050 Lathrop Avenue

Harvey, Illinois 60426

Telephone: 708-333-8900 Fax: 708-333-9180

Contact Person: EHS Department E-mail: sds@fuchs.com

Emergency telephone number: 708-333-8900 (Bus. hrs) 800-255-3924 (24 hrs)

## 2. Hazard(s) identification

#### **Hazard Classification**

#### **Health Hazards**

Acute toxicity (Oral)

Serious Eye Damage/Eye Irritation

Category 2A

Carcinogenicity

Category 1B

Toxic to reproduction

Category 2

#### **Label Elements**

## **Hazard Symbol:**

Signal Word: Danger

SDS\_US 1/9

**Hazard Statement:** Harmful if swallowed.

Causes serious eye irritation.

May cause cancer.

Suspected of damaging fertility or the unborn child.

Precautionary Statements

**Prevention:** Obtain special instructions before use. Do not handle until all safety

precautions have been read and understood. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when

using this product. Wear protective gloves/protective clothing/eye

protection/face protection. Use personal protective equipment as required.

Response: IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse

mouth. IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF exposed or concerned:

Get medical advice/attention.

Storage: Store locked up.

**Disposal:** Dispose of contents/ container to an approved facility in accordance with

local, regional, national and international regulations.

Other hazards which do not result in GHS classification:

None.

#### **Unknown toxicity - Health**

Acute toxicity, oral 70 %
Acute toxicity, dermal 72 %
Acute toxicity, inhalation, vapor 100 %
Acute toxicity, inhalation, dust 97 %

or mist

## 3. Composition/information on ingredients

## **Hazardous Component(s):**

Chemical name	CAS-No.	Concentration
Sodium Tetraborate Decahydrate	1303-96-4	20 - <50%
Cellulose	9004-34-6	20 - <50%
Sodium nitrite	7632-00-0	1 - <2.5%
Polyethylene glycol	Confidential	1 - <2.5%
Cellulose compound	Confidential	1 - <5%

Specific chemical identities and/or exact percentages have been withheld as trade secrets.

SDS US 2/9

4. First-aid measures

**Ingestion:** Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.

**Inhalation:** Move to fresh air. Call a POISON CENTER/doctor if you feel unwell.

**Skin Contact:** Remove contaminated clothing and shoes. Wash contact areas with soap

and water. If skin irritation occurs: Get medical advice/attention.

**Eye contact:** Immediately flush with plenty of water for at least 15 minutes. If easy to do,

remove contact lenses. Get medical attention.

Most important symptoms/effects, acute and delayed

**Symptoms:** No data available.

Indication of immediate medical attention and special treatment needed

**Treatment:** Symptoms may be delayed.

5. Fire-fighting measures

**General Fire Hazards:** No unusual fire or explosion hazards noted.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing

media:

Water spray, fog, CO2, dry chemical, or regular foam. Use fireextinguishing media appropriate for surrounding materials.

Unsuitable extinguishing

media:

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from

the chemical:

Heat may cause the containers to explode. During fire, gases hazardous to

health may be formed.

Special protective equipment and precautions for fire-fighters

Special fire-fighting

procedures:

No data available.

Special protective equipment

for fire-fighters:

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in

enclosed spaces, SCBA.

## 6. Accidental release measures

SDS\_US 3/9

Personal precautions, protective equipment and emergency procedures: See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away. Ensure adequate ventilation.

Methods and material for containment and cleaning up:

Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Dike far ahead of larger spill for later recovery and disposal.

**Environmental Precautions:** 

Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.

# 7. Handling and storage

Precautions for safe handling:

Observe good industrial hygiene practices. Wear appropriate personal protective equipment. Do not expose to intense heat as product may expand and pressurize container. Do not taste or swallow. Wash hands thoroughly after handling. Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Avoid contact with eyes.

Conditions for safe storage, including any incompatibilities:

Store in original tightly closed container. Avoid contact with oxidizing agents. Store away from incompatible materials. Store locked up.

### 8. Exposure controls/personal protection

**Exposure Limits** 

Chemical name	Туре	Exposure Limit Values	Source
Sodium Tetraborate Decahydrate - Inhalable fraction.	STEL	6 mg/m3	US. ACGIH Threshold Limit Values, as amended (2011)
Sodium Tetraborate Decahydrate - Inhalable fraction.	TWA	2 mg/m3	US. ACGIH Threshold Limit Values, as amended (2011)
Cellulose	TWA	10 mg/m3	US. ACGIH Threshold Limit Values, as amended (03 2012)
Cellulose - Respirable fraction.	PEL	5 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000), as amended (02 2006)
Cellulose - Total dust.	PEL	15 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000), as amended (02 2006)

**Protective Measures:** 

Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Respiratory Protection:** 

In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.

SDS\_US 4/9

**Eye Protection:** Wear safety glasses with side shields (or goggles).

**Skin and Body Protection:** Wear chemical-resistant gloves, footwear, and protective clothing appropriate

for the risk of exposure. Contact health and safety professional or manufacturer

for specific information.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after

handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear

that cannot be cleaned.

#### 9. Physical and chemical properties

**Appearance** 

Physical state: solid

Form: No data available.

Color: Brown

Odor: No data available.

Odor threshold: No data available.

**pH**: 9.3

Melting point/freezing point:No data available.Initial boiling point and boiling range:No data available.Flash Point:No data available.Evaporation rate:No data available.Flammability (solid, gas):No data available.

Upper/lower limit on flammability or explosive limits

Flammability limit - upper (%):

Flammability limit - lower (%):

Explosive limit - upper:

Explosive limit - lower:

Vapor pressure:

No data available.

Relative density: 1.2

Solubility(ies)

Solubility in water: Soluble

Solubility (other):

Partition coefficient (n-octanol/water):

Auto-ignition temperature:

No data available.

SDS US 5/9

#### 10. Stability and reactivity

**Reactivity:** Not reactive during normal use.

**Chemical Stability:** Material is stable under normal conditions.

Possibility of hazardous

reactions:

None under normal conditions.

**Conditions to avoid:** Avoid heat or contamination.

**Incompatible Materials:** No data available.

**Hazardous Decomposition** 

**Products:** 

Thermal decomposition or combustion may liberate carbon oxides and

other toxic gases or vapors.

## 11. Toxicological information

Information on likely routes of exposure

**Ingestion:** Harmful if swallowed.

**Inhalation:** Harmful if inhaled.

**Skin Contact:** Prolonged or repeated skin contact may cause drying, cracking, or irritation.

**Eye contact:** Causes serious eye irritation.

Symptoms related to the physical, chemical and toxicological characteristics

**Ingestion:** No data available.

**Inhalation:** No data available.

**Skin Contact:** No data available.

**Eye contact:** No data available.

Information on toxicological effects

Acute toxicity (list all possible routes of exposure)

Oral

**Product:** ATEmix (): 300 - 2000 mg/kg

**Dermal** 

**Product:** ATEmix (): > 5000 mg/kg

Inhalation

**Product:** Not classified for acute toxicity based on available data.

SDS\_US 6/9

Repeated dose toxicity

**Product:** No data available.

Skin Corrosion/Irritation

**Product:** No data available.

Serious Eye Damage/Eye Irritation

**Product:** No data available.

Respiratory or Skin Sensitization

**Product:** No data available.

Carcinogenicity

**Product:** May cause cancer. The IARC monograph classification of Group 2A

(Probable carcinogen) for nitrites addresses chronic dietary nitrite exposure, not occupational exposure. Due to the physical matrix of the product (liquid)

and under normal occupational use, the potential of ingestion is not

anticipated.

IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:

Sodium nitrite Overall evaluation: 2A. Probably carcinogenic to humans.

**US. National Toxicology Program (NTP) Report on Carcinogens:** 

No carcinogenic components identified

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050), as amended:

No carcinogenic components identified

**Germ Cell Mutagenicity** 

In vitro

**Product:** No data available.

In vivo

**Product:** No data available.

Reproductive toxicity

SDS\_US 7/9

**Product:** 

Suspected of damaging fertility or the unborn child. This product contains Borax (disodium tetraborate). Animal feeding studies in rat, mouse, and dog, at high doses, have demonstrated effects on fertility and testes. Studies with chemically related boric acid in rat, mouse and rabbit, at high doses, demonstrate developmental effects on the fetus including fetal weight loss and minor skeletal variations. The doses administered were many times in excess of those which humans would normally be exposed to. An epidemiology study under the conditions of normal occupation exposure to borate dusts indicated no effect on fertility.

In the European Union, disodium tetraborates are listed in the Annex XVII of REACH Regulation 1907/2006 and its use in consumer products above specific concentration limits (SQL) is restricted. Disodium tetraborates can be used in consumer products below its SQL, which is greater or equal to 8.5% for Borax decahydrate.

Specific Target Organ Toxicity - Single Exposure

**Product:** No data available.

Specific Target Organ Toxicity - Repeated Exposure

**Product:** No data available.

**Aspiration Hazard** 

**Product:** No data available.

Other effects: No data available.

#### 12. Ecological information

General information: This product has not been evaluated for ecological toxicity or other

environmental effects.

## 13. Disposal considerations

**Disposal instructions:** Discharge, treatment, or disposal may be subject to national, state, or local

laws. Dispose of waste at an appropriate treatment and disposal facility in

accordance with applicable laws and regulations, and product

characteristics at time of disposal. It is the responsibility of the product user or owner to determine at the time of disposal, which waste regulations must

be applied.

**Contaminated Packaging:** Empty containers should be taken to an approved waste handling site for

recycling or disposal.

#### 14. Transport information

#### DOT

Not regulated.

SDS US 8/9

**IMDG** 

Not regulated.

**IATA** 

Not regulated.

# 15. Regulatory information

# **US Federal Regulations**

# US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050), as amended None present or none present in regulated quantities.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### **Hazard categories**

Immediate (Acute) Health Hazards
Delayed (Chronic) Health Hazard
Acute toxicity (any route of exposure)
Serious eye damage or eye irritation
Carcinogenicity
Reproductive toxicity

#### SARA 313 (TRI Reporting)

Reporting threshold for threshold for manufacturing and processing
Sodium nitrite 10000 lbs Reporting threshold for manufacturing and processing 25000 lbs.

#### **US State Regulations**

#### **US. California Proposition 65**

No ingredient requiring a warning under CA Prop 65.

## 16.Other information, including date of preparation or last revision

**Issue Date:** 15.12.2022

**Revision Date:** 15.12.2022

Version #: 1.1

Further Information: No data available.

**Disclaimer:** This information is provided without warranty. The information is believed to

be correct. This information should be used to make an independent determination of the methods to safeguard workers and the environment.
