### **5. Fire-fighting measures**

|                              |  |
|------------------------------|--|
| <b>General Fire Hazards:</b> | Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting the fire. Fight fire from a protected location. Move containers from fire area if you can do so without risk. |
|------------------------------|--|

#### **Suitable (and unsuitable) extinguishing media**

|                                      |  |
|--------------------------------------|--|
| <b>Suitable extinguishing media:</b> | Water spray, fog, CO <sub>2</sub> , dry chemical, or regular foam. Use fire-extinguishing media appropriate for surrounding materials. |
|--------------------------------------|--|

|  |  |
|--|--|
| <b>Unsuitable extinguishing media:</b> | Avoid water in straight hose stream; will scatter and spread fire. |
|--|--|

|  |  |
|--|--|
| <b>Specific hazards arising from the chemical:</b> | Vapors may travel considerable distance to a source of ignition and flash back. Vapors may cause a flash fire or ignite explosively. Prevent buildup of vapors or gases to explosive concentrations. |
|--|--|

#### **Special protective equipment and precautions for firefighters**

|  |                    |
|--|--------------------|
| <b>Special fire fighting procedures:</b> | No data available. |
|--|--------------------|

|  |  |
|--|--|
| <b>Special protective equipment for fire-fighters:</b> | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. |
|--|--|

### **6. Accidental release measures**

|   |  |
|---|--|
| <b>Personal precautions, protective equipment and emergency procedures:</b> | Ventilate closed spaces before entering them. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep upwind. Keep unauthorized personnel away. Ensure adequate ventilation. See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. |
| <b>Methods and material for containment and cleaning up:</b>                | Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. In case of leakage, eliminate all ignition sources. Dike far ahead of larger spill for later recovery and disposal. Use non-sparking tools.   |
| <b>Environmental Precautions:</b>   | Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.   |

## 7. Handling and storage

|  |   |
|--|---|
| <b>Precautions for safe handling:</b>                                | End-users should follow industry best practices for handling and using this product.<br><br>Guidance may be found using the current version of ASTM Standard E1497-05: Standard Practice for Selection and Safe Use of Water-Miscible and Straight Oil Metal Removal Fluids Observe good industrial hygiene practices. Wear appropriate personal protective equipment. Do not expose to intense heat as product may expand and pressurize container. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Ground and bond container and receiving equipment. Take precautionary measures against static discharges. |
| <b>Conditions for safe storage, including any incompatibilities:</b> | Store locked up. Store in a well-ventilated place. Store in a cool place. Flammable liquid storage.   |

## 8. Exposure controls/personal protection

|                                |  |
|--------------------------------|--|
| <b>Exposure Limits</b>         | None of the components have assigned exposure limits.  |
| <b>Protective Measures:</b>    | Use explosion-proof ventilation equipment. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |
| <b>Respiratory Protection:</b> | In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.  |
| <b>Eye Protection:</b>         | Wear safety glasses with side shields (or goggles).  |

|                                  |  |
|----------------------------------|--|
| <b>Skin and Body Protection:</b> | Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacturer for specific information.   |
| <b>Hygiene measures:</b>         | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned. |
