

## SAFETY DATA SHEET

#### 1. Identification

Product name	RENOLIT CXS PSG 1
Other means of identification	No data available.
Recommended use:	Lubricating grease
Restrictions on use:	Industrial use only

#### Manufacturer/Importer/Supplier/Distributor Information

#### Manufacturer

Company Name: Address:	Fuchs Lubricants Co. 17050 Lathrop Avenue Harvey, Illinois 60426
Telephone:	708-333-8900
Fax:	708-333-9180
Contact Person:	EHS Department
E-mail:	sds@fuchs.com

Emergency telephone number: 708-333-8900 (Bus. hrs) 800-255-3924 (24 hrs)

#### 2. Hazard(s) identification

#### **Hazard Classification**

#### Health Hazards

Skin Corrosion/Irritation	Category 2
Serious Eye Damage/Eye Irritation	Category 2A
Toxic to reproduction	Category 2

#### Label Elements

Hazard Symbol:

Signal Word:

Warning

Hazard Statement:	Causes skin irritation. Causes serious eye irritation. Suspected of damaging fertility or the unborn child.
Precautionary Statements	
Prevention:	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves/ protective clothing/ eye protection/ face protection. Use personal protective equipment as required.
Response:	IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing. Specific treatment (see supplemental first aid instructions on this label). IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF exposed or concerned: Get medical advice/attention.
Storage:	Store locked up.
Disposal:	Dispose of contents/ container to an approved facility in accordance with local, regional, national and international regulations.
Other hazards which do not result in GHS classification:	None.
Unknown toxicity - Health	

Tiknown toxicity - nealth	
Acute toxicity, oral	28.96 %
Acute toxicity, dermal	16.37 %
Acute toxicity, inhalation, vapor	85.58 %
Acute toxicity, inhalation, dust or mist	83.24 %

#### 3. Composition/information on ingredients

#### Hazardous Component(s):

Chemical name	CAS-No.	Concentration
Calcium dodecylbenzenesulphonate	26264-06-2	10 - <20%
1-Propene, 2-methyl-, homopolymer	9003-27-4	5 - <10%
Magnesium silicate	14807-96-6	1 - <5%
Benzenamine, N-phenyl-, reaction products with	68411-46-1	0.1 - <1%
2,4,4-trimethylpentene		

Specific chemical identities and/or exact percentages have been withheld as trade secrets.

4. First-aid measures		
Ingestion:	Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.	
Inhalation:	Move to fresh air. Call a POISON CENTER/doctor if you feel unwell.	
Skin Contact:	Remove contaminated clothing and shoes. Wash contact areas with soap and water. If skin irritation occurs: Get medical advice/attention.	
Eye contact:	Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.	
Most important symptoms/effec	ts, acute and delayed	
Symptoms:	No data available.	
ndication of immediate medical a	attention and special treatment needed	
Treatment:	Get medical attention if symptoms occur.	
5. Fire-fighting measures		
General Fire Hazards:	No unusual fire or explosion hazards noted.	
Suitable (and unsuitable) exting	uishing media	
Suitable extinguishing media:	Water spray, fog, CO2, dry chemical, or regular foam. Use fire- extinguishing media appropriate for surrounding materials.	
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical:	Heat may cause the containers to explode. During fire, gases hazardous to health may be formed.	
Special protective equipment an	nd precautions for fire-fighters	
Special fire-fighting procedures:	No data available.	
Special protective equipment for fire-fighters:	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.	
6. Accidental release measure	!S	
Personal precautions.	See Section 8 of the SDS for Personal Protective Equipment. Do not touch	

# Personal precautions,<br/>protective equipment and<br/>emergency procedures:See Section 8 of the SDS for Personal Protective Equipment. Do not touch<br/>damaged containers or spilled material unless wearing appropriate<br/>protective clothing. Keep unauthorized personnel away.

Methods and material for containment and cleaning up:	Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Dike far ahead of larger spill for later recovery and disposal.
Environmental Precautions:	Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.
7. Handling and storage	
Precautions for safe handling:	Observe good industrial hygiene practices. Wear appropriate personal protective equipment. Do not expose to intense heat as product may expand and pressurize container. Wash hands thoroughly after handling. Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Avoid contact with skin.
Conditions for safe storage, including any incompatibilities:	Store locked up.

#### 8. Exposure controls/personal protection

#### **Exposure Limits**

Chemical name	Туре	Exposure Limit Values	Source
Magnesium silicate - Respirable fraction.	TWA	2 mg/m3	US. ACGIH Threshold Limit Values, as amended (03 2012)
Magnesium silicate	TWA	20 millions of particles per cubic foot of air	US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (2000)
Magnesium silicate - Respirable.	TWA	2.4 millions of particles per cubic foot of air	US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (2000)
Magnesium silicate - Respirable.	TWA	0.1 mg/m3	US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (2000)

Protective Measures:	Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.	
Respiratory Protection:	In case of inadequate ventilation use suitable respirator. Seek advice from supervisor on the company's respiratory protection standards.	
Eye Protection:	Wear safety glasses with side shields (or goggles).	
Skin and Body Protection:	Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacture for specific information.	۶r
Hygiene measures:	Always observe good personal hygiene measures, such as washing after	
SDS_US		4/

handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.

#### 9. Physical and chemical properties

Appearance	
Physical state:	solid
Form:	Grease
Color:	Light amber
Odor:	Mild
Odor threshold:	No data available.
pH:	No data available.
Melting point/freezing point:	No data available.
Initial boiling point and boiling range:	No data available.
Flash Point:	250 °C (482 °F)
Evaporation rate:	No data available.
Flammability (solid, gas):	No data available.
Upper/lower limit on flammability or explosive limits	
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper:	No data available.
Explosive limit - lower:	No data available.
Vapor pressure:	No data available.
Vapor density:	No data available.
Relative density:	0.95
Solubility(ies)	
Solubility in water:	Insoluble in water
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.

#### 10. Stability and reactivity

Reactivity:	Not reactive during normal use.
Chemical Stability:	Material is stable under normal conditions.
Possibility of hazardous reactions:	None under normal conditions.

Conditions to avoid:	Avoid heat or contamination.
Incompatible Materials:	No data available.
Hazardous Decomposition Products:	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.
11. Toxicological information	 
Information on likely routes of Ingestion:	<b>exposure</b> May be harmful if swallowed.
Inhalation:	None under normal conditions.
Skin Contact:	Causes skin irritation.
Eye contact:	Causes serious eye irritation.
Symptoms related to the physi Ingestion:	cal, chemical and toxicological characteristics No data available.
Inhalation:	No data available.
Skin Contact:	No data available.
Eye contact:	No data available.
Information on toxicological ef	fects
Acute toxicity (list all possib	le routes of exposure)
Oral Product:	ATEmix (): 2000 - 5000 mg/kg
Dermal Product:	ATEmix (): 2000 - 5000 mg/kg
Inhalation Product:	Dust and mist: ATEmix (, 4 h): > 5 mg/l Dust and mist
Repeated dose toxicity Product:	No data available.
Skin Corrosion/Irritation Product:	No data available.
Serious Eye Damage/Eye Irritation Product: No data available.	
Respiratory or Skin Sensitizat	ion

**Product:** 

Carcinogenicity Product:

This product contains a low concentration of hydrated magnesium silicate (Talc). Under the International Agency for Research on Cancer (IARC), Talc in powder form is classified as Group 1: Carcinogenic to Humans. This is based on exposure through inhalation and perineal dusting with talc-based body powders. For this product, Talc is bound in the product's matrix (grease). As a consequence, exposure to airborne Talc particles/dusts is not anticipated.

#### IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:

No data available.

No carcinogenic components identified US. National Toxicology Program (NTP) Report on Carcinogens: No carcinogenic components identified

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended: No carcinogenic components identified

#### **Germ Cell Mutagenicity**

In vitro Product:	No data available.
In vivo Product:	No data available.
Reproductive toxicity Product:	Suspected of damaging fertility or the unborn child.
Specific Target Organ Toxicity - Single ExposureProduct:No data available.	
Specific Target Organ Toxicity - Repeated Exposure   Product: No data available.	
Aspiration Hazard Product:	No data available.
Other effects:	No data available.

#### 12. Ecological information

General information:	This product has not been evaluated for ecological toxicity or other
	environmental effects.

#### 13. Disposal considerations

Disposal instructions:	Discharge, treatment, or disposal may be subject to national, state, or local laws. Dispose of waste at an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. It is the responsibility of the product user or owner to determine at the time of disposal, which waste regulations must be applied.
Contaminated Packaging:	Empty containers should be taken to an approved waste handling site for recycling or disposal.

#### 14. Transport information

#### DOT

Not Regulated.

#### IMDG

Not Regulated.

#### ΙΑΤΑ

Not Regulated.

#### 15. Regulatory information

#### **US Federal Regulations**

### US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended None present or none present in regulated quantities.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### **Hazard categories**

Immediate (Acute) Health Hazards Delayed (Chronic) Health Hazard Skin Corrosion or Irritation Serious eye damage or eye irritation Reproductive toxicity

#### SARA 313 (TRI Reporting)

None present or none present in regulated quantities.

#### **US State Regulations**

#### US. California Proposition 65

This product can expose you to chemicals includingMagnesium silicateCrystalline silicawhich is [are] known to the State of California to cause cancer.
