## Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 08.12.2016

Version number 48

Revision: 08.12.2016

## **SECTION 1: Identification of the substance/mixture and of the company/ undertaking**

- · 1.1 Product identifier
- · Trade name: ACTICIDE LA 1209
- · 1.2 Relevant identified uses of the substance or mixture and uses advised against:
- · Application of the substance/the mixture: Biocidal product for industrial use.
- 1.3 Details of the supplier of the safety data sheet:

 Address and telephone number of the supplier: Thor Specialities (UK) LTD. Wincham Avenue Wincham Northwich Cheshire CW9 6GB United Kingdom Phone: (UK) +44 (0) 1606 818800 Fax: (UK) +44 (0) 1606 818801

• Competent person responsible for the Material Safety Data Sheet: Regulatory Department: sds@thor.uk.com

 1.4 Emergency telephone number: National Poisons Information Service (24 h service): Phone: +44 (0) 844-892-0111 (UK only) Transport Emergency phone number (24 h service): Phone: +49 621 60-43333 - Fax: +49 621 60-92664

## **SECTION 2: Hazards identification**

· 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008 respectively UN GHS

GHS05 corrosion

$\sim$			
Met. Corr.1	H290	May be corrosive to metals.	
Skin Corr. 1B	H314	Causes severe skin burns and eye damage.	
Eye Dam. 1	H318	Causes serious eye damage.	
GHS09 6	environi	ment	
Aquatic Acute 1	H400	Very toxic to aquatic life.	
Aquatic Chronic 2	H411	Toxic to aquatic life with long lasting effects.	
GHS07			
Acute Tox. 4	H302	Harmful if swallowed.	
Skin Sens. 1		May cause an allergic skin reaction.	
<ul> <li>Classification sys</li> </ul>	stem:	(Centel en nerre 2)

	The CAS No. of the single	ed risk/hazard phrases refer to section 16.	

- After inhalation: Supply fresh air; consult doctor in case of symptoms.
- · After skin contact

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention.

Immediate medical treatment necessary. Failure to treat burns can prevent wounds from healing. After eye contact:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Consult an eye specialist immediately.

After swallowing:

IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

IF SWALLOWED: Immediately call a POISON CENTER/ doctor.

Bring vomiting person into recovery position.

Do not give anything by mouth to an unconscious person.

• **4.2 Most important symptoms and effects, both acute and delayed** Allergic skin reactions. Skin reaction like itching, reddening, blistering may appear after hours.

Corrosive damage to gastro-intestinal tract.

- · Information for doctor: Probable mucosal damage may contraindicate the use of gastric lavage.
- **Danger** Danger of gastric perforation.
- 4.3 Indication of any immediate medical attention and special treatment needed If swallowed, gastric irrigation with activated carbon.
   Treat skin and mucous membrane with antihistamine and corticoid preparations.
   Rinse eyes thoroughly with physiological saline.

Page 4/13

## **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Water spray jet, extinguishing powder, CO<sub>2</sub>, foam.
- · Unsuitable extinguishing agents for reasons of safety: None

#### • **5.2 Special hazards arising from the substance or mixture** In case of fire, toxic incineration products may be released such as: Nitrogen oxides (NOx) Carbon monoxide (CO) Bromine compounds such as HBr, Br<sub>2</sub> Hydrogen chloride (HCI) Sulphur dioxide (SO<sub>2</sub>)

· 5.3 Advice for firefighters

- · Protective equipment: Wear self-contained breathing apparatus.
- Additional information
- Collect contaminated fire fighting water separately. It must not enter drains.

## **SECTION 6: Accidental release measures**

#### · 6.1 Personal precautions, protective equipment and emergency procedures

Wear protective clothing (see item 8).

Keep unprotected persons away.

When selecting the protective suit attention has to be paid to the complete and safe protection of skin and mucous membranes. Impermeable protective clothes, protective boots made of neoprene, complete face protection and nitrile-rubber-gloves with long tops should be worn.

#### · 6.2 Environmental precautions:

As the product is hazardous for the aquatic environment, it must be prevented from reaching surface water.

Prevent from spreading (e. g. by enclosing with a ring of chemical absorbent). Inform authorities in case of contamination of water or sewage system.

**6.3 Methods and material for containment and cleaning up:** Collect large amounts in suitable container. Cover the rest with absorbent, mix intensively and collect mechanically.

Suitable binder: multi-purpose absorbent.

Dispose of contaminated material as waste according to item 13.

Polluted surfaces can be decontaminated with a solution containing 5% sodium bisulphite and 5% sodium bicarbonate.

In case of a spill drained to the sewer collect contaminated water in suitable container and add 10% sodium bisulfite solution. Contact supplier for further instructions.

#### · 6.4 Reference to other sections None

## **SECTION 7: Handling and storage**

#### · 7.1 Precautions for safe handling

Ensure good exhaust ventilation at the workplace. It is preferable to handle the product in a closed system.

(Contd. on page 5)

(Contd. of page 4) Avoid air pollution at the workplace e.g. aerosol formation or product heating. Risks to the safety and health of workers may not only be created by work involving chemicals but, inter alia by work equipment and the fitting-out of work-places. Those risks shall be identified and evaluated. · Information about protection against explosion and fire: No special measures required. · 7.2 Conditions for safe storage, including any incompatibilities · Storage · Requirements to be met by storerooms and containers: Store only in the original container. Information about suitable materials for vessels and piping can be requested from our sales department Tel.: +44(0)1606 818800. · Information about storage in a common storage facility: Store away from foodstuffs. · Further information about storage conditions: Possibility of reversible formation of crystals at temperatures < 0 °C. After warming up and stirring the product can be used again. Prevent release to the environment by adequate secondary containment design and use of appropriate spill control procedures. · Minimum storage temperature: 5 °C · Sensitivity against frost: Protect from frost. · 7.3 Specific end use(s) No further relevant information available. **SECTION 8: Exposure controls/personal protection** · 8.1 Control parameters · Components with critical values that require monitoring at the workplace: None established. · Additional information: Information valid at the time of review of safety data sheet. · 8.2 Exposure controls · Technical protective equipment: In case of contamination devices to rinse eyes or skin immediately under running water must be available. · Personal protective equipment General protective and hygienic measures: Use skin cream for skin protection. Avoid contact with the eyes and the skin. Wash hands during work breaks and at the end of the shift. Provide skin protection plan. · Respiratory protection: Not required · Protection of hands: Chemical protective gloves according to DIN EN 374 with CE-labelling. Check the condition of protective gloves after each use for any damages like holes, cuts or tears. Do not wear protective gloves longer than necessary.

- After use of gloves apply skin-cleaning agents and skin cosmetics.
- Material of gloves Nitrile rubber, NBR
- · Penetration time of glove material:

Thickness: 0.4 mm; break-through time: 480 min; material: Nitrile; permeation: level 6

(Contd. on page 6)

 Gloves made of the following materials are not suitable: Gloves for mechanical protection do not provide protection against chemicals.
 Eye protection:

Face shield (visor)

Use visor in combination with goggle. • Body protection:

Protective clothing.

Apron

Full head, face and neck protection

Risk management measures

The operators shall be instructed adequately.

The workplace shall be inspected regularly by competent personnel e.g. the safety representative.

## **SECTION 9: Physical and chemical properties**

· 9.1 Information on basic physical and chemical properties · General Information · Appearance: Form: Liquid Colourless to slightly yellowish Colour: · Odour: Mild Odour threshold: Not relevant for safety · pH-value at 20 °C: 2.0-4.0 Change in condition Melting point/Melting range: Not determined Boiling point/Boiling range: ca. 100 °C · Flash point: Not applicable. · Self-inflammability: Product is not self-igniting. · Danger of explosion: Product is not explosive. • Vapour pressure at 20 °C: 23 mbar (H<sub>2</sub>O) · Density at 20 °C: 1.05 - 1.07 g/cm3 · Relative density (D<sup>20</sup>4) at 20 °C: 1.060 (OECD 109) · Solubility in / Miscibility with Fully miscible Water: 9.2 Other information No further relevant information available.

(Contd. of page 6)

## **SECTION 10: Stability and reactivity**

• 10.1 Reactivity Corrosive action on metals possible.

- · 10.2 Chemical stability
- · Conditions to be avoided:

Before handling, the product should not be diluted or mixed with other chemicals, in order to avoid any negative influences on the ingredient(s).

- · Minimum shelf life: 18 months from production date, if stored at a temperature of about 20 °C.
- 10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials:

Alkalis (lyes) Reducing agents Strong oxidising agents Nucleophils

· 10.6 Hazardous decomposition products:

None, if storage and handling is done according to specification.

## **SECTION 11: Toxicological information**

- · 11.1 Information on toxicological effects
- · Acute toxicity

Harmful if swallowed.

· LD/LC50 ۱	· LD/LC50 values that are relevant for classification:		
Oral	LD <sub>50</sub>	1665 mg/kg (rat) (EPA 81-1) bridging from S 59	
Dermal		> 2000 mg/kg (rat) (EPA 81-2) bridging from S 60	
Inhalation	ATE Nebel/Stäube	4.7 mg/l, 4h (calculated)	

#### Evaluation:

The LC<sub>50</sub> resp. ATE value for the exposure route 'inhalation' is not considered at the classification because no dust/mist can arise physically at intended use or at reasonable foreseeable misuse. • **Skin corrosion/irritation:** 

Causes severe skin burns and eye damage.

#### · Results of studies:

	ction mass of: 5-chloro-2-methyl-4-iso-thia hethyl-2H-isothiazol-3-one [EC no. 220-239-0	
Irritation of skin	OECD 404 (acute dermal irritation/corrosion)	corrosive (rabbit) (OECD 404) S 32

## **SECTION 15: Regulatory information**

- · 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
- · Directive 2012/18/EU
- · Qualifying quantity (tonnes) for the application of lower-tier requirements 100 t
- · Qualifying quantity (tonnes) for the application of upper-tier requirements 200 t
- REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 3
- · National regulations:
- · Information about limitation of use:

Take note of Directive 94/33/EC on the protection of young people at work. Take note of Directive 92/85/EC on the safety and health of pregnant women at work.

 $\cdot$  Regulations which may apply in event of accident: Control of Major Accident Hazards (COMAH)

Critical quantity values according to the regulations on accidents (Seveso Directive) should be adhered to.

- · Indication of VOC:
- · VOC according to Directive 2010/75/EC:

This product does not contain any relevant amounts of "Volatile Organic Compounds" (VOC). • VOC according to Decopaint Directive (2004/42/EC):

- The product does not contribute significantly to the total content of VOCs in paints and varnishes. • SVOC according to EU-Ecolabel for interior and exterior paints (2014/312/EU):
- This product does not contain any Semi Volatile Organic Compounds in the definition of the 2014/312/EU.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

#### **SECTION 16: Other information**

This data is based on our current knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally valid contractual relationship.

#### · Relevant phrases

- H272 May intensify fire; oxidiser.
- H301 Toxic if swallowed.
- H302 Harmful if swallowed.
- H311 Toxic in contact with skin.
- H312 Harmful in contact with skin.
- H314 Causes severe skin burns and eye damage.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H331 Toxic if inhaled.
- H335 May cause respiratory irritation.

## Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 08.12.2016

Version number 48

Revision: 08.12.2016

(Contd. of page 12)

#### Trade name: ACTICIDE LA 1209

H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects.

## • Training hints

Further information regarding the directions for use can be found in the Product Data Sheet.

Classification according to Regulation (EC) No 1272/2008

The classification includes the relevant available information about the mixture or the substances contained therein.

The evaluation of the available information within the scope of classification refers to the forms and aggregate states in which the mixture has been placed on the market and will be used most likely. • Contact for technical information Biocides: info@thor.uk.com

- Abbreviations and acronyms:
- PBT: persistent, bioaccumulative, toxic vPvB: very persistent, very bioaccumulative ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road) IMDG: International Maritime Code for Dangerous Goods IATA: International Air Transport Association GHS: Globally Harmonised System of Classification and Labelling of Chemicals EINECS: European Inventory of Existing Commercial Chemical Substances ELINCS: European List of Notified Chemical Substances CAS: Chemical Abstracts Service (division of the American Chemical Society) LC50: Lethal concentration, 50 percent LD50: Lethal dose, 50 percent PBT: Persistent, Bioaccumulative and Toxic Ox. Sol. 2: Oxidizing solids – Category 2 Met. Corr.1: Corrosive to metals - Category 1 Acute Tox. 3: Acute toxicity – Category 3 Acute Tox. 4: Acute toxicity - Category 4 Skin Corr. 1B: Skin corrosion/irritation - Category 1B Skin Irrit. 2: Skin corrosion/irritation - Category 2 Eye Dam. 1: Serious eye damage/eye irritation - Category 1 Eye Irrit. 2: Serious eye damage/eye irritation - Category 2 Skin Sens. 1: Skin sensitisation - Category 1 Skin Sens. 1A: Skin sensitisation - Category 1A STOT SE 3: Specific target organ toxicity (single exposure) - Category 3 Aquatic Acute 1: Hazardous to the aquatic environment - acute aquatic hazard - Category 1 Aquatic Chronic 1: Hazardous to the aquatic environment - long-term aquatic hazard – Category 1 Aquatic Chronic 2: Hazardous to the aquatic environment - long-term aquatic hazard - Category 2
