Substance(s) formed under the conditions of use:

**Substance(s) formed under the** Generates acetic acid during cure.

#### 3. Composition/information on ingredients

**Mixtures** 

**Composition Comments:** The components are not hazardous or are below required disclosure limits.

4. First-aid measures

General information: No action shall be taken involving any personal risk or without suitable

training.

**Ingestion:** If swallowed, do NOT induce vomiting. Give a glass of water.

**Inhalation:** If inhaled, remove to fresh air. If not breathing give artificial respiration

using a barrier device. If breathing is difficult give oxygen. Get medical

attention.

**Skin Contact:** To clean from skin, remove completely with a dry cloth or paper towel,

before washing with detergent and water. If skin irritation occurs: Get

medical advice/attention.

Eye contact: In case of contact with eyes, rinse immediately with plenty of water and

seek medical advice.

Most important symptoms/effects, acute and delayed

**Symptoms:** No data available.

Hazards: No data available.

Indication of immediate medical attention and special treatment needed

**Treatment:** Treatment is symptomatic and supportive.

5. Fire-fighting measures

General Fire Hazards: Use standard firefighting procedures and consider the hazards of other

involved materials. Prevent runoff from fire control or dilution from entering

streams, sewers, or drinking water supply.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing

media:

All standard extinguishing agents are suitable.

SDS\_US 2/11

Revision Date: 11/22/2017

#### **RTV159**

Unsuitable extinguishing

media:

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from

the chemical:

In case of fire, carbon monoxide and carbon dioxide may be formed. Use

water spray to keep fire-exposed containers cool.

Special protective equipment and precautions for firefighters

Special fire fighting

procedures:

Take precautionary measures against static discharges. Keep away from

sources of ignition - No smoking.

Special protective equipment

for fire-fighters:

Firefighters must wear NIOSH/MSHA approved positive pressure selfcontained breathing apparatus with full face mask and full protective

clothing.

#### 6. Accidental release measures

Personal precautions, protective equipment and

protective equipment and emergency procedures:

Avoid contact with skin and eyes. Use only in well-ventilated areas. Remove contact lenses before using sealant. Do not handle lenses until all sealant has been cleaned from the finger and hands. Product releases acetic acid during application and curing. Keep out of reach of children. See

Section 8 of the SDS for Personal Protective Equipment.

Methods and material for containment and cleaning

up:

Wipe, scrape or soak up in an inert material and put in a container for disposal. Wash walking surfaces with detergent and water to reduce slipping hazard. Wear proper protective equipment as specified in the

protective equipment section.

Notification Procedures: ELIMINATE all ignition sources (no smoking, flares, sparks or flames in

immediate area). See Section 8 of the SDS for Personal Protective

Equipment.

**Environmental Precautions:** Do not allow runoff to sewer, waterway or ground.

#### 7. Handling and storage

Precautions for safe handling:

Sensitivity to static discharge is not expected. Acetic acid is formed during processing. Wear appropriate personal protective equipment. Use only in well-ventilated areas. Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Keep containers tightly closed. See

Section 8 of the SDS for Personal Protective Equipment.

Conditions for safe storage,

including any incompatibilities:

Keep away from heat, sparks and open flame. Keep container tightly closed in a cool, well-ventilated place.

### 8. Exposure controls/personal protection

#### **Control Parameters**

**Occupational Exposure Limits** 

None of the components have assigned exposure limits.

**Appropriate Engineering** 

**Controls** 

Eye wash facilities and emergency shower must be available when

handling this product.

Individual protection measures, such as personal protective equipment

**General information:** Eyewash bottle with clean water. Use only in well-ventilated areas. When

using do not eat, drink or smoke. Wash hands after handling.

**Eye/face protection:** Safety glasses with side shields

**Skin Protection** 

Hand Protection: Chemical resistant gloves

**Other:** Wear suitable protective clothing and eye/face protection.

**Respiratory Protection:** If exposure limits are exceeded or respiratory irritation is experienced,

NIOSH/MSHA approved respiratory protection should be worn. Supplied air respirators may be required for non-routine or emergency situations. Respiratory protection must be provided in accordance with OSHA

regulations (see 29CFR 1910.134).

**Hygiene measures:** Avoid contact with eyes, skin, and clothing. Ensure adequate ventilation,

especially in confined areas. Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product.

When using do not eat, drink or smoke.
