Precautionary s		
P210	Keep away from heat, hot surfaces, sparks, open flames and	other ignition sources
D 0 - 0	No smoking.	
P250	Do not subject to grinding/shock/friction.	
P261	Avoid breathing dust.	
P264	Wash thoroughly after handling.	ratation
P280 P271	Wear protective gloves/protective clothing/eye protection/face p	rotection.
	Use only outdoors or in a well-ventilated area. 38 IF IN EYES: Rinse cautiously with water for several minutes. R	Pomovo contact loncor
F 3037F 3317F 34	if present and easy to do. Continue rinsing.	
P373	DO NOT fight fire when fire reaches explosives.	
P370+P380	In case of fire: Evacuate area.	
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable	for breathing.
P312	Call a POISON CENTER/doctor if you feel unwell.	
P372	Explosion risk in case of fire.	
P332+P313	If skin irritation occurs: Get medical advice/attention.	
P337+P313	If eye irritation persists: Get medical advice/attention.	
P302+P352	IF ON SKIN: Wash with plenty of water.	
P362+P364	Take off contaminated clothing and wash it before reuse.	
P401	Store in accordance with local/regional/national/international reg	gulations.
P405	Store locked up.	
P403+P233	Store in a well-ventilated place. Keep container tightly closed.	
P501	Dispose of contents/container in accordance with local/regiona	al/national/internationa
	regulations.	(Cont'd. on page 3

Printing date August 12, 2015

Revision: August 12, 2015

Trade name: Flameless Expulsion OC Grenade

(Cont'd. from page 2)

· 2.3 Other hazards

- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.

Explosive Product Notice

PREVENTION OF ACCIDENTS IN THE USE OF EXPLOSIVES - The prevention of accidents in the use of explosives is a result of careful planning and observance of the best known practices. The explosives user must remember that he is dealing with a powerful force and that various devices and methods have been developed to assist him in directing this force. He should realize that this force, if misdirected, may either kill or injure both him and his fellow workers.

WARNING - All explosives are dangerous and must be carefully handled and used following approved safety procedures either by or under the direction of competent, experienced persons in accordance with all applicable federal, state, and local laws, regulations, or ordinances. If you have any questions or doubts as to how to use any explosive product, DO NOT USE IT before consulting with your supervisor, or the manufacturer, if you do not have a supervisor. If your supervisor has any questions or doubts, he should consult the manufacturer before use.

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

• Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous components:		
CAS: 124-38-9 EINECS: 204-696-9	carbon dioxide	50-100%
CAS: 1309-48-4 EINECS: 215-171-9 Index number: 025-199-09-0	magnesium oxide substance with a Community workplace exposure limit	25-50%
CAS: 8023-77-6 EINECS: 288-920-0	Oleoresin Capsicum Eye Dam. 1, H318 Acute Tox. 4, H302; Skin Irrit. 2, H315	_ ≤ 2,5%
CAS: 7440-50-8 EINECS: 231-159-6	copper substance with a Community workplace exposure limit	≤ 2,5%
CAS: 7440-66-6	zinc metal Aquatic Acute 1, H400; Aquatic Chronic 1, H410	_ ≤ 2,5%

· Additional information:

For the listed ingredient(s), the identity and exact percentages are being withheld as a trade secret.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

- · General information: Take affected persons out into the fresh air.
- · After inhalation:
- Supply fresh air; consult doctor in case of complaints.

Provide oxygen treatment if affected person has difficulty breathing.

(Cont'd. on page 4)

Printing date August 12, 2015

Trade name: Flameless Expulsion OC Grenade

(Cont'd. from page 3) · After skin contact: Immediately rinse with water. If skin irritation continues, consult a doctor. · After eve contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately. · 4.2 Most important symptoms and effects, both acute and delayed Blast injury if mishandled. Coughing Irritant to skin and mucous membranes. Irritant to eves. May cause respiratory irritation. · Hazards Danger of blast or crush-type injuries. 4.3 Indication of any immediate medical attention and special treatment needed If necessary oxygen respiration treatment. Product may produce physical injury if mishandled. Treatment of these injuries should be based on the blast and compression effects. SECTION 5: Firefighting measures 5.1 Extinguishing media

- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- · For safety reasons unsuitable extinguishing agents: None.
- · 5.2 Special hazards arising from the substance or mixture

Contains gas under pressure; may explode if heated.

Formation of toxic gases is possible during heating or in case of fire.

Product may explode if burned in confined space. Individual cartridges may explode. Mass explosion of many cartridges at once is unlikely.

- · 5.3 Advice for firefighters
- Protective equipment:

Wear self-contained respiratory protective device.

- Wear fully protective suit.
- · Additional information

Eliminate all ignition sources if safe to do so.

In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Flammability Classification: (defined by 29 CFR 1910.1200) Explosive. Can explode under fire conditions. Individual devices will randomly explode. Will not mass explode if multiple devices are involved. Burning material may produce toxic and irritating vapors. In unusual cases, shrapnel may be thrown from exploding devices under containment. See 2008 Emergency response Guidebook for further information.

(Cont'd. on page 5)

Printing date August 12, 2015

Revision: August 12, 2015

Trade name: Flameless Expulsion OC Grenade

(Cont'd. from page 4)

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures FOR ALL TRANSPORTATION ACCIDENTS, CALL CHEMTEL AT 1-800-255-3924. Spills of this material should be handled carefully. Do not subject materials to mechanical shock or extreme heat. A spill of this material will normally not require emergency response team capabilities. Use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away. Remove persons from danger area. Ensure adequate ventilation Isolate area and prevent access. · 6.2 Environmental precautions: No special measures required. · 6.3 Methods and material for containment and cleaning up: Pick up mechanically. Dispose contaminated material as waste according to section 13. Send for recovery or disposal in suitable receptacles. · 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. **SECTION 7: Handling and storage** 7.1 Precautions for safe handling Handle with care. Avoid jolting, friction and impact.
 - Use only in well ventilated areas. • Information about fire - and explosion protection: Emergency cooling must be available in case of nearby fire. Pressurised container: May burst if heated.
 - · 7.2 Conditions for safe storage, including any incompatibilities
 - · Storage:
 - Requirements to be met by storerooms and receptacles: Pressurised container: May burst if heated. Store in a cool location.
 - Information about storage in one common storage facility: Store away from foodstuffs.
 - Further information about storage conditions: Store in dry conditions.
 - · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

• Additional information about design of technical facilities: No further data; see section 7.

· Decomposition temperature:	Not determined.	
· Self-igniting:	Product is not self-igniting.	
· Danger of explosion:	Not determined.	
 Explosion limits: Lower: Upper: Oxidising properties 	Not determined. Not determined. Non-oxidising.	
· Vapour pressure:	Not determined.	
 Density: Relative density Vapour density Evaporation rate 	Not determined. Not determined. Not determined. Not applicable.	
 Solubility in / Miscibility with water: 	Not miscible or difficult to mix.	
· Partition coefficient (n-octanol/water): Not determined.		
 Viscosity: Dynamic: Kinematic: 9.2 Other information 	Not determined. Not determined. No further relevant information available.	

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: Contains gas under pressure; may explode if heated.
- **10.3 Possibility of hazardous reactions** Fire or projection hazard. Toxic fumes may be released if heated above the decomposition point.
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products:
- Carbon dioxide Possible in traces: Carbon monoxide
- Nitrogen oxides

Sulphur oxides (SOx)

(Cont'd. on page 9)

Printing date August 12, 2015

Revision: August 12, 2015

Trade name: Flameless Expulsion OC Grenade

(Cont'd. from page 8)

SECTION 11: Toxicological information

· 11.1 Information on toxicological effects

· Acute toxicity

· LD/LC50 values relevant for classification:

8023-77-6 Oleoresin Capsicum

Oral LD50 3000 mg/kg (rat)

Dermal LD50 >2500 mg/kg (mouse)

- · Primary irritant effect:
- · Skin corrosion/irritation
- Causes skin irritation.
- · Serious eye damage/irritation
- Causes serious eye irritation.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · Additional toxicological information:

Normal handling of the undeployed product poses little or no health hazards, One should avoid inhalation by wearing appropriate respiratory protection when exposed to the chemical ingredients of the product above listed TLV's or when exposed to the post ignition by-products. This product is a cansister which contains the various components completely sealed within. Therefore, under normal handling of this product, no exposure to any harmful materials will occur. When the product is used, particles may be generated which may be irritating to the eyes and the respiratory tract.

 Acute effects (acute toxicity, irritation and corrosivity): Danger of blast or crush-type injuries. Irritating to avec, readjuster, aveter and ekin

- Irritating to eyes, respiratory system and skin.
- Repeated dose toxicity: No further relevant information available.
- \cdot CMR effects (carcinogenity, mutagenicity and toxicity for reproduction):
- · Germ cell mutagenicity
- Based on available data, the classification criteria are not met.
- · Carcinogenicity
- Based on available data, the classification criteria are not met.
- · Reproductive toxicity
- Based on available data, the classification criteria are not met.
- STOT-single exposure
- May cause respiratory irritation.
- STOT-repeated exposure
- Based on available data, the classification criteria are not met.
- Aspiration hazard
- Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

- · 12.1 Toxicity
- Aquatic toxicity: No further relevant information available.
- **12.2 Persistence and degradability** No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- **12.4 Mobility in soil** No further relevant information available.
- · Ecotoxical effects:
- · Remark: Harmful to fish

Printing date August 12, 2015

Revision: August 12, 2015

Trade name: Flameless Expulsion OC Grenade

(Cont'd. from page 9)

· Additional ecological information:

· General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Harmful to aquatic organisms

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

- · 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

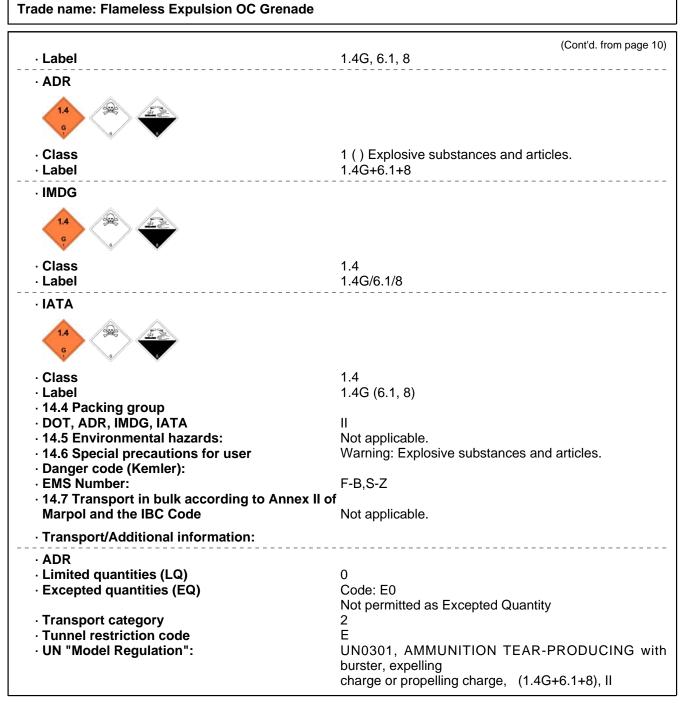

· Uncleaned packaging:

• Recommendation: Disposal must be made according to local official regulations.

SECTION 14: Transport information	
· 14.1 UN-Number	
· DOT, ADR, IMDG, IATA	UN0301
 14.2 UN proper shipping name 	
· DOT, IMDG, IATA	AMMUNITION TEAR-PRODUCING with burster, expelling charge or propelling charge
· ADR	0301 AMMUNITION TEAR-PRODUCING with burster, expelling charge or propelling charge
 14.3 Transport hazard class(es) 	
·DOT	
· Class	1.4

(Cont'd. from page 12)

· Canadian Ingredient Disclosure list (limit 0.1%)

None of the ingredients are listed.

· Canadian Ingredient Disclosure list (limit 1%)

124-38-9 carbon dioxide

1309-48-4 magnesium oxide

7631-86-9 silicon dioxide

· Directive 2012/18/EU

Named dangerous substances - ANNEX I

None of the ingredients are listed.

· Other regulations, limitations and prohibitive regulations

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.

· Substances of very high concern (SVHC) according to REACH, Article 57

None of the ingredients are listed.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases

H280 Contains gas under pressure; may explode if heated.

H302 Harmful if swallowed.

H315 Causes skin irritation.

H318 Causes serious eye damage.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

Abbreviations and acronyms:

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

- DOT: US Department of Transportation
- IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

ACGIH: American Conference of Governmental Industrial Hygienists

EINECS: European Inventory of Existing Commercial Chemical Substances ELINCS: European List of Notified Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

DNEL: Derived No-Effect Level (REACH)

PNEC: Predicted No-Effect Concentration (REACH)

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

PBT: Persistent, Bioaccumulative and Toxic

SVHC: Substances of Very High Concern

vPvB: very Persistent and very Bioaccumulative Expl. 1.4: Explosives, Division 1.4
