(Cont'd. from page 2) Precautionary statements The following Precautionary Statements are applicable only to the general GHS regulations and not the specific CLP regulation: P374. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P250 Do not subject to grinding/shock/friction. Do not breathe dust/fume/gas/mist/vapours/spray. P260 In case of inadequate ventilation wear respiratory protection. P285 Wear protective gloves/protective clothing/eye protection/face protection. P280 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P373 DO NOT fight fire when fire reaches explosives. If experiencing respiratory symptoms: Call a POISON CENTER/doctor. P342+P311 P374 Fight fire with normal precautions from a reasonable distance. P372 Explosion risk in case of fire. P333+P313 If skin irritation or rash occurs: Get medical advice/attention. P302+P352 IF ON SKIN: Wash with plenty of soap and water. P403+P233 Store in a well-ventilated place. Keep container tightly closed. P501 Dispose of contents/container in accordance with local/regional/national/international regulations. · Additional information: Can become highly flammable in use. NFPA ratings (scale 0 - 4) Health = 4Fire = 0Reactivity = 3 · HMIS-ratings (scale 0 - 4) Warning: Contains lead salt(s). Long-term health hazard. *3 Health = *3 HEALTH • Fire = 0 FIRE REACTIVITY 3 Reactivity = 3 * - Indicates a long term health hazard from repeated or prolonged exposures. · HMIS Long Term Health Hazard Substances 7778-74-7 potassium perchlorate 122-39-4 diphenylamine 15245-44-0 lead 2,4,6-trinitro-m-phenylene dioxide · 2.3 Other hazards Results of PBT and vPvB assessment · **PBT:** Not applicable. · vPvB: Not applicable. Explosive Product Notice PREVENTION OF ACCIDENTS IN THE USE OF EXPLOSIVES - The prevention of accidents in the use of explosives is a result of careful planning and observance of the best known practices. The explosives user must remember that he is dealing with a powerful force and that various devices and methods have been developed to assist him in directing this force. He should realize that this force, if misdirected, may either kill or injure both him and his fellow workers.

(Cont'd. from page 3)

WARNING - All explosives are dangerous and must be carefully handled and used following approved safety procedures either by or under the direction of competent, experienced persons in accordance with all applicable federal, state, and local laws, regulations, or ordinances. If you have any questions or doubts as to how to use any explosive product, DO NOT USE IT before consulting with your supervisor, or the manufacturer, if you do not have a supervisor. If your supervisor has any questions or doubts, he should consult the manufacturer before use.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

Take affected persons out into the fresh air.

Do not leave affected persons unattended.

Remove breathing equipment only after contaminated clothing have been completely removed.

After inhalation:

Remove victim to fresh air.

Seek immediate medical advice.

Provide oxygen treatment if affected person has difficulty breathing.

In case of irregular breathing or respiratory arrest provide artificial respiration.

• After skin contact:

Immediately remove any clothing soiled by the product.

(Cont'd. on page 6)

according to 1907/2006/EC (REACH), 1272/2008/EC (CLP), and OSHA

GHS

Printing date July 15, 2015

Revision: July 15, 2015

Trade name: Direct Impact® 40mm CS Crushable Foam Round

(Cont'd. from page 5) Brush off loose particles from skin. Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor. · After eve contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately. · 4.2 Most important symptoms and effects, both acute and delayed Asthma attacks Blast injury if mishandled. Allergic reactions May cause respiratory irritation. Breathing difficulty Coughing Irritant to eves. Irritant to skin and mucous membranes. Hazards Danger of blast or crush-type injuries. Harmful in contact with skin. Danger of impaired breathing. • 4.3 Indication of any immediate medical attention and special treatment needed Product may produce physical injury if mishandled. Treatment of these injuries should be based on the blast and compression effects. Contains [(2-chlorophenyl)methylene]malononitrile. May produce an allergic reaction. Severe allergic skin reaction, bronchial spasms and anaphylactic shock are possible. In cases of irritation to the lungs, initial treatment with cortical steroid inhalants. Monitor circulation, possible shock treatment. Treat skin and mucous membrane with antihistamine and corticoid preparations. If necessary oxygen respiration treatment. Medical supervision for at least 48 hours. SECTION 5: Firefighting measures

SECTION 5: Firefighting measur

· 5.1 Extinguishing media

Suitable extinguishing agents:

Flood area with water. If no water is available, carbon dioxide, dry chemical or earth may be used. If the fire reaches the cargo, withdraw and let fire burn.

• For safety reasons unsuitable extinguishing agents: None.

5.2 Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced.

Product may explode if burned in confined space. Individual cartridges may explode. Mass explosion of many cartridges at once is unlikely.

5.3 Advice for firefighters

• Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

(Cont'd. on page 7)

GHS

Revision: July 15, 2015

Trade name: Direct Impact® 40mm CS Crushable Foam Round

(Cont'd. from page 6)

· Additional information

Eliminate all ignition sources if safe to do so.

Cool endangered receptacles with water spray.

Evacuate area and fight fire from from the upwind side.

In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Flammability Classification: (defined by 29 CFR 1910.1200) Explosive. Can explode under fire conditions. Individual devices will randomly explode. Will not mass explode if multiple devices are involved. Burning material may produce toxic and irritating vapors. In unusual cases, shrapnel may be thrown from exploding devices under containment. See 2008 Emergency response Guidebook for further information.

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures

FOR ALL TRANSPORTATION ACCIDENTS, CALL CHEMTEL AT 1-800-255-3924. Spills of this material should be handled carefully. Do not subject materials to mechanical shock or extreme heat. A spill of this material will normally not require emergency response team capabilities.

Use respiratory protective device against the effects of fumes/dust/aerosol.

Wear protective equipment. Keep unprotected persons away.

Remove persons from danger area.

Ensure adequate ventilation

Protect from heat.

Isolate area and prevent access.

• 6.2 Environmental precautions: No special measures required.

6.3 Methods and material for containment and cleaning up:

Pick up mechanically.

Dispose contaminated material as waste according to section 13.

Send for recovery or disposal in suitable receptacles.

Clean the affected area carefully; suitable cleaners are:

Warm water and cleansing agent

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling Handle with care. Avoid jolting, friction and impact. Avoid breathing dust. Use only in well ventilated areas. Information about fire - and explosion protection: Protect from heat. Keep respiratory protective device available.

Emergency cooling must be available in case of nearby fire.

• 7.2 Conditions for safe storage, including any incompatibilities • Storage:

• Requirements to be met by storerooms and receptacles:

Avoid storage near extreme heat, ignition sources or open flame.

Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from flammable substances.

• Further information about storage conditions: Store in dry conditions.

• 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

• Additional information about design of technical facilities: No further data; see section 7.

• Protection of hands:

Protective gloves

Wear gloves when handling deployed rounds.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Safety glasses

Body protection: Protective work clothing
Limitation and supervision of exposure into the environment No further relevant information available.
Risk management measures See Section 7 for additional information. Organizational measures should be in place for all activities involving this product. No further relevant information available.

SECTION 9: Physical and chemical properties

15245-4	4-0 lead 2,4,6-trinitro-m-phenylene dioxide	
Oral	LD50 650 mg/kg (rat)	
	riritant effect:	
	based on exposure to dusts/mists/spray/vapours released during d	eployment. Unused product
	t possess these effects.	
	rrosion/irritation	
	skin irritation. • eye damage/irritation	
	serious eye irritation.	
	tory or skin sensitisation	
May cau	ise allergy or asthma symptoms or breathing difficulties if inhaled.	
	ise an allergic skin reaction.	
	nal toxicological information:	One should evoid inhelation
	handling of the undeployed product poses little or no health hazards, ing appropriate respiratory protection when exposed to the chemica	
	sted TLV's or when exposed to the post ignition by-products. This	
	s the various components completely sealed within. Therefore, un	
product,	, no exposure to any harmful materials will occur. When the produ	
	ed which may be irritating to the eyes and the respiratory tract.	
	allergic skin reaction, bronchial spasms and anaphylactic shock are po	ossible.
	ffects (acute toxicity, irritation and corrosivity): to eyes, respiratory system and skin.	
	on may cause irritation to the respiratory system.	
	ed dose toxicity:	
	se damage to organs through prolonged or repeated exposure.	
	ed exposures may result in skin and/or respiratory sensitivity.	
	fects (carcinogenity, mutagenicity and toxicity for reproduction):	
	ell mutagenicity n available data, the classification criteria are not met.	
• Carcino	,	
	in available data, the classification criteria are not met.

Trade name: Direct Impact® 40mm CS Crushable Foam Round

(Cont'd. from page 13)

· Reproductive toxicity

Based on available data, the classification criteria are not met.

· STOT-single exposure

May cause respiratory irritation.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

· 12.1 Toxicity

• Aquatic toxicity:

The product contains materials that are harmful to the environment.

2698-41-1 [(2-chlorophenyl)methylene]malononitrile

EC50 0,2-0,3 mg/kg (Oncorhynchus mykiss)

96 H

• 12.2 Persistence and degradability No further relevant information available.

· 12.3 Bioaccumulative potential May be accumulated in organism

12.4 Mobility in soil No further relevant information available.

· Ecotoxical effects:

· Remark: Harmful to fish

· Additional ecological information:

· General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

The product contains heavy metals. Avoid transfer into the environment. Specific preliminary treatments are necessary

Harmful to aquatic organisms

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

· 12.5 Results of PBT and vPvB assessment

· **PBT:** Not applicable.

· vPvB: Not applicable.

· 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. After prior treatment product has to be disposed of in an incinerator for hazardous waste adhering to the regulations pertaining to the disposal of particularly hazardous waste.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.
