SECTION 3: Composition/information on ingredients

[•] 3.2 Mixtures

· Components:

7429-90-5aluminum metalThe Water-react. 1, H260carbon blacksubstance with a Community workplace exposure limit

· Additional information: For the wording of the listed Hazard Statements refer to section 16.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

• General information: Take affected persons out into the fresh air.

· After inhalation:

Supply fresh air; consult doctor in case of complaints.

Provide oxygen treatment if affected person has difficulty breathing.

In case of irregular breathing or respiratory arrest provide artificial respiration.

· After skin contact:

Brush off loose particles from skin.

Clean with water and soap.

If skin irritation continues, consult a doctor.

• After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; call for medical help immediately.

4.2 Most important symptoms and effects, both acute and delayed

Slight irritant effect on eyes.

Coughing

Gastric or intestinal disorders when ingested.

· Hazards: No further relevant information available.

· 4.3 Indication of any immediate medical attention and special treatment needed

If necessary oxygen respiration treatment.

Medical supervision for at least 48 hours.

SECTION 5: Firefighting measures

• 5.1 Extinguishing media • Suitable extinguishing agents:

Water in flooding quantities. Foam

Dry sand

(Cont'd. on page 3)

Printing date: April 19, 2016

Limestone powder

_ . . . _ . _ . _

Trade name: Lightning Powder® Latent Print Powder Paks (Silver Grey)

(Cont'd. from page 2)

Revision: April 19, 2016

• For safety reasons unsuitable extinguishing agents: None.

5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

May form combustible dust concentrations in air.

5.3 Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

• Additional information: No further relevant information available.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation

Wear protective equipment. Keep unprotected persons away.

6.2 Environmental precautions No special measures required.

• 6.3 Methods and material for containment and cleaning up Pick up mechanically.

Send for recovery or disposal in suitable receptacles.

Clean the affected area carefully; suitable cleaners are:

Warm water and cleansing agent

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

[•]7.1 Precautions for safe handling

Any unavoidable deposit of dust must be regularly removed. Use only in well ventilated areas.

· Information about fire - and explosion protection: May form combustible dust concentrations in air.

·7.2 Conditions for safe storage, including any incompatibilities

· Storage:

· Requirements to be met by storerooms and receptacles:

Protect from humidity and water.

Avoid storage near extreme heat, ignition sources or open flame.

Information about storage in one common storage facility:

Do not store together with oxidising and acidic materials. Protect from humidity and water.

Store away from foodstuffs.

• Further information about storage conditions:

Store in cool, dry conditions in well sealed receptacles.

(Cont'd. on page 4)

Printing date: April 19, 2016

Trade name: Lightning Powder® Latent Print Powder Paks (Silver Grey)

This product is hygroscopic.

(Cont'd. from page 3)

Revision: April 19, 2016

7.3 Specific end use(s) No further relevant information available.

SECTION	8: Exposure controls/personal protection				
	 8.1 Control parameters Ingredients with limit values that require monitoring at the workplace:

EN approved organic vapour respirator equipped with a dust/mist prefilter should be used. of hands:				
Pro	otective gloves				
Selection of degradation					

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

(Cont'd. on page 5)

Printing date: April 19, 2016

Revision: April 19, 2016

Trade name: Lightning Powder® Latent Print Powder Paks (Silver Grey)

(Cont'd. from page 4)

Sensibilisation by the components in the glove materials is possible.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

For the permanent contact gloves made of the following materials are suitable:

Butyl rubber, BR

Neoprene gloves Natural rubber, NR

Nitrile rubber, NBR

- Eye protection:

Safety glasses

· **Body protection:** Protective work clothing

· Limitation and supervision of exposure into the environment: No special requirements.

· Risk management measures: No special requirements.

9.1 Information on basic physica	al and chemical properties	
Appearance		
Form:	Powder	
Colour:	Grey	
Odour:	Odourless	
Odour threshold:	Not determined.	
pH-value:	Not applicable.	
Melting point/Melting range:	Not determined.	
Boiling point/Boiling range:	Not determined.	
Flash point:	Not applicable.	
Flammability (solid, gaseous):	Not determined.	
Auto/Self-ignition temperature:	Not determined.	
Decomposition temperature:	Not determined.	
Danger of explosion:	Product does not present an explosion hazard.	
Explosion limits		
Lower:	Not determined.	
Upper:	Not determined.	
Vapour pressure:	Not applicable.	
Density:	Not determined.	
Relative density:	Not determined.	
Vapour density:	Not applicable.

SECTION 10: Stability and reactivity

• **10.1 Reactivity** No further relevant information available.

[•] 10.2 Chemical stability

• Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

· 10.3 Possibility of hazardous reactions No dangerous reactions known.

• 10.4 Conditions to avoid Store away from oxidising agents.

• 10.5 Incompatible materials No further relevant information available.

* 10.6 Hazardous decomposition products Possible in traces.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

• Acute toxicity: Based on available data, the classification criteria are not met.

LD/LC50 values relevant for classification: None.

· Primary irritant effect

• Skin corrosion/irritation: Based on available data, the classification criteria are not met.

· Serious eye damage/irritation: Slight irritant effect on eyes.

• Respiratory or skin sensitisation: Based on available data, the classification criteria are not met.

· Carcinogenic categories

· IARC (International Agency for Research on Cancer):

1333-86-4 carbon black

• NTP (National Toxicology Program):

None of the ingredients are listed.

• OSHA-Ca (Occupational Safety & Health Administration):

None of the ingredients are listed.

· Probable routes of exposure:

Inhalation.

Ingestion.

Skin contact.

Eye contact.

- Acute effects (acute toxicity, irritation and corrosivity): From product as supplied: None.
- Repeated dose toxicity: From product as supplied: None.
- Germ cell mutagenicity: Based on available data, the classification criteria are not met.
- Carcinogenicity: Based on available data, the classification criteria are not met.
- Reproductive toxicity: Based on available data, the classification criteria are not met.
- STOT-single exposure: Based on available data, the classification criteria are not met.
- STOT-repeated exposure: Based on available data, the classification criteria are not met.
- Aspiration hazard: Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

[·] 12.1 Toxicity

· Aquatic toxicity: No further relevant information available.

- 12.2 Persistence and degradability No further relevant information available.
- **12.3 Bioaccumulative potential** No further relevant information available.
- **12.4 Mobility in soil** No further relevant information available.
- · Additional ecological information:
- · General notes:

Negative ecological effects are, according to the current state of knowledge, not expected.

- 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- * 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

[•] 13.1 Waste treatment methods

· Recommendation

Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

On the basis of the necessary technical regulations and after consultation with the disposal agent and the relevant authorities, can be disposed of with domestic waste or incinerated with domestic waste.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

· Uncleaned packaging:

- · Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.
